Fundstellen methodischer Grundlagen

Erläuterungen zur Methode dieser Statistik sind in der früheren Fachserie M "Preise, Löhne, Wirtschaftsrechnungen", Reihe 15, Teil I, Februar/Mai 1957, Oktober 1964, Januar 1966, Januar 1972 und in Teil 11, November 1961 und Januar 1973 sowie in "Wirtschaft und Statistik", Heft 12/1979, Heft 9/1983 enthalten. Die weiterhin gültigen methodischen Grundlagen der Indizes sind im Heft 8/1985 von "Wirtschaft und Statistik" für die Indizes auf der Basis 1980 veröffentlicht.

Umstellung der vierteljährlichen Verdiensterhebung auf die Klassifikation der Wirtschaftszweige, Ausgabe 1993

Aufgrund der Verordnung (EWG) des Rates vom 9. Oktober 1990 (ABl. EG Nr. L 293 vom 24. Oktober 1990) ist für Erhebungen der EU-Mitgliedstaaten ausschließlich die statistische Systematik der Wirtschaftszweige in der Europäischen Gemeinschaft (NACE Rev. 1) anzuwenden, in Deutschland in der Fassung der Klassifikation der Wirtschaftszweige, Ausgabe 1993 (WZ 93). Bei der vierteljährlichen Verdiensterhebung erfolgte die Umstellung auf die WZ 93 im Berichtsmonat Januar 1996 (s. Einführung).

Einführung

Umstellung des Wirtschaftszweigkatalogs

Nach der Verordnung (EWG) Nr. 3307/90 des Rates der Europäischen Gemeinschaften vom 9. Oktober 1990 (ABl. EG Nr. L 293 vom 24. Oktober 1990) sind die in der amtlichen Statistik der EU-Mitgliedstaaten verwendeten Wirtschaftszweigsystematiken auf die statistische Systematik der Wirtschaftszweige in der Europäischen Gemeinschaft umzustellen. Mit dem Heft Januar 1996 erfolgte die vorgeschriebene Umstellung des Wirtschaftszweigkatalogs in der laufenden Verdiensterhebung. Für Vergleichszwecke stehen damit dem Benutzer die Verdienstangaben aller EU-Mitgliedstaaten in einer einheitlichen Wirtschaftszweigklassifikation zur Verfügung. Diese Vereinheitlichung der Wirtschaftszweigklassifikation hat jedoch auch die Folge, daß für einige bisher in der nationalen Systematik nachgewiesenen Wirtschaftszweige nunmehr keine Daten bekannt gegeben werden können.

Im Zuge dieser Umstellung mußte der Erfassungsbereich der Erhebung der neuen Klassifikation angepaßt werden. Als wichtigste Änderungen sind hier die zusätzliche Einbeziehung des Verlagsgewerbes und des Recyclings im Verarbeitenden Gewerbe sowie des Reparaturgewerbes, Kraftfahrzeughandels und der Tankstellen im Handel anzugeben.

Im Rahmen dieser Umstellungen sind auch die Bezeichnungen einzelner Wirtschaftsbereiche geändert worden: „Industrie (einschl. Hoch- und Tiefbau mit Handwerk)“ in „Produzierendes Gewerbe“ und „Verarbeitende Industrie (ohne Bauindustrie)“ in „Verarbeitendes Gewerbe“. Trotz dieser Umbenennungen werden Handwerksbetriebe – wie bisher – ausschließlich im Hoch- und Tiefbau (und Handel) erfaßt. Nicht mehr nachgewiesen werden die Wirtschaftsbereiche: „Industrie (ohne Bauindustrie)“, „Industrie (ohne Bergbau), Hoch- und Tiefbau mit Handwerk“, „Verarbeitende Industrie (ohne Gewinnung und Verarbeitung von Steinen und Erden sowie ohne Bauindustrie)“, „Verarbeitende Industrie (ohne Gewinnung und Verarbeitung von Steinen und Erden), Hoch- und Tiefbau mit Handwerk“.

Zweck, Erfassungsbereich und Erhebungsmethode

Die laufende Verdiensterhebung wird nach dem Lohnstatistikgesetz¹⁾ in vierteljährlichen Abständen für die Monate Januar, April, Juli und Oktober durchgeführt.

1) Gesetz über die Lohnstatistik in der Fassung der Bekanntmachung vom 3. April 1996 (BGBl. I S. 598) in Verbindung mit dem Gesetz über die Statistik für Bundeszwecke (Bundesstatistikgesetz - BStatG) vom 22. Januar 1987 (BGBl. I S. 462, 565), zuletzt geändert durch Artikel 2 des Gesetzes vom 17. Januar 1996 (BGBl. I S. 34).

Sie informiert über die durchschnittlichen Bruttostunden- und -wochenverdienste sowie bezahlten Wochenstunden der Arbeiter und Bruttomonatsverdienste der Angestellten. Eine Hauptaufgabe dieser Erhebungen besteht in der Abbildung der kurzfristigen Entwicklung der genannten Angaben. Die „reine“ Entwicklung dieser Größen wird durch Indizes dargestellt, die nach der Formel von Laspeyres berechnet werden und damit den Einfluß von Veränderungen in der Beschäftigungsstruktur ausschließen. Die letzten verfügbaren Indexwerte beziehen sich auf das Basisjahr 1991 = 100. Wegen der Umstellung auf die neue Wirtschaftsklassifikation können für das Jahr 1996 z. Z. keine Werte bekannt gegeben werden.

Der Erfassungsbereich der Erhebung ist für die Arbeiter- und Angestelltenangaben unterschiedlich: Die Ergebnisse der Arbeiter beziehen sich ausschließlich auf Bergbau und Gewinnung von Steinen und Erden, Verarbeitendes Gewerbe, Energie- und Wasserversorgung sowie Hoch- und Tiefbau, diejenigen der Angestellten zusätzlich noch auf den Handel sowie das Kredit- und Versicherungsgewerbe. Nach der Klassifikation der Wirtschaftszweige, Ausgabe 1993, erstreckt sich die Erhebung auf die Abschnitte C bis E sowie die Wirtschaftsgruppe 45.2 bei den Arbeitern und bei den Angestellten zusätzlich auf die Abschnitte G und J.

In den Wirtschaftsbereichen Bergbau und Gewinnung von Steinen und Erden, Verarbeitendes Gewerbe sowie Energie- und Wasserversorgung werden Betriebe mit 10 und mehr Arbeitnehmern befragt, in anderen Erfassungsbereichen Betriebe mit 5 und mehr Arbeitnehmern. Handwerksbetriebe werden ausschließlich im Hoch- und Tiefbau sowie im Handelsbereich erfaßt.

Die Verdiensterhebung wird als Stichprobenerhebung durchgeführt. Im früheren Bundesgebiet werden z. Z. etwa 10 Prozent und in den neuen Ländern und Berlin-Ost 66 Prozent der zur Auswahlmasse zählenden Betriebe erfaßt.

Die Erhebung erfolgt nach der Summenmethode; erfragt werden also nicht Angaben für einzelne Personen, sondern Summenangaben, also z.B. die Gehaltssumme einer Angestelltengruppe sowie deren Kopffzahl.

Definitionen

Betrieb im Sinne der Erhebung ist die örtliche Einheit als Zusammenfassung der räumlich zusammenhängenden Teile eines Unternehmens.

Erfaßter Personenkreis: In die Verdiensterhebung werden alle Arbeiter und Angestellten der Stichprobenbetriebe einbezogen mit Ausnahme der Teilzeitbeschäftigten, Auszubildenden, mithelfenden Familienangehörigen sowie der Personen, die wegen Krankheit, Einstellung oder Entlassung nicht für den ganzen Erhebungsmonat entlohnt wurden.

Nicht erfaßt werden ferner leitende Angestellte, Angestellte mit voller Aufsichts- und Dispositionsbefugnis.

Als Arbeiter gelten Personen, die der Versicherungspflicht in der Arbeiterrentenversicherung unterliegen, als Angestellte zählen Arbeitnehmer, die der Versicherungspflicht in der Angestelltenrentenversicherung unterliegen oder die von der Versicherungspflicht auf Grund besonderer Vorschriften befreit sind.

Leistungsgruppen der Angestellten: Für Zwecke der statistischen Analyse werden Leistungsgruppen gebildet, die eine grobe Abstufung der Angestelltentätigkeiten nach der Qualifikation darstellen. Meist sind den Leistungsgruppen mehrere Gehaltsgruppen der in diesem Wirtschaftsbereich angewandten Tarifverträge zuzuordnen. (Leistungsgruppe I umfaßt die in dieser Erhebung nicht berücksichtigten leitenden Angestellten.)

Leistungsgruppe II: Kaufmännische und technische Angestellte mit besonderen Erfahrungen und selbständigen Leistungen in verantwortlicher Tätigkeit mit eingeschränkter Dispositionsbefugnis, die Angestellte anderer Tätigkeitsgruppen einzusetzen und verantwortlich zu unterweisen haben. Ferner Angestellte mit umfassenden kaufmännischen oder technischen Kenntnissen; außerdem Angestellte, die als Obermeister, Oberrichtmeister oder Meister mit hohem beruflichen Können und besonderer Verantwortung großen Werkstätten oder Abteilungen vorstehen.

Leistungsgruppe III: Kaufmännische und technische Angestellte mit mehrjähriger Berufserfahrung oder besonderen Fachkenntnissen und Fähigkeiten bzw. mit Spezialtätigkeiten, die nach allgemeiner Anweisung selbständig arbeiten, jedoch in der Regel keine Verantwortung für die Tätigkeit anderer tragen. Außerdem Angestellte mit qualifizierter Tätigkeit, die die fachlichen Erfahrungen eines Meisters, Richtmeisters oder Gießereimeisters aufweisen, bei erhöhter Verantwortung größeren Abteilungen vorstehen und denen Aufsichtspersonen und Hilfsmeister unterstellt sind.

Leistungsgruppe IV: Kaufmännische und technische Angestellte ohne eigene Entscheidungsbefugnis in einfacher Tätigkeit, deren Ausübung eine abgeschlossene Berufsausbildung oder durch mehrjährige Berufstätigkeit, den erfolgreichen Besuch einer Fachschule oder privates Studium erworbene Fachkenntnisse voraussetzt. Außerdem Angestellte, die als Aufsichtsperson einer kleineren Zahl von überwiegend ungelerten Arbeitern vorstehen, sowie Hilfsmeister, Hilfswerkmeister oder Hilfsrichtmeister.

Leistungsgruppe V: Kaufmännische und technische Angestellte in einfacher, schematischer oder mechanischer Tätigkeit, die keine Berufsausbildung erfordert.

Bruttoverdienst: Der Bruttoverdienst umfaßt alle Beträge, die vom Arbeitgeber in jeder Gehaltsabrechnungsperiode gezahlt werden, das ist das tariflich oder

frei vereinbarte Gehalt einschließlich tariflicher und außer tariflicher Leistungs-, Sozial- und sonstiger Zulagen und Zuschläge. Dazu rechnen auch monatlich gezahlte Umsatzprovisionen, Kostenersatz oder Zuschüsse für Fahrten zwischen Wohnung und Arbeitsstätte des Arbeitnehmers sowie der steuerliche Wert überlassener Naturalleistungen (z.B. Kost, Unterkunft).

Nicht zum Bruttoverdienst rechnen alle Beträge, die nicht oder nicht ausschließlich, der Arbeitstätigkeit im Erhebungszeitraum zuzurechnen sind, z.B. Nachzahlungen sowie alle einmaligen Zahlungen wie Gratifikationen, Jahresabschlußprämien, Gewinnanteile, Gewinnbeteiligungen, zusätzliches Urlaubsgeld und nicht regelmäßig gezahlte vermögenswirksame Leistungen. Dagegen sind derartige Sonderzahlungen einzubeziehen, wenn sie in monatlichen Teilbeträgen laufend bezahlt werden. Nicht berücksichtigt werden außerdem Spensersatz, Trennungentschädigungen, Auslösungen u.ä. Zahlungen.

Langfristige Indexreihe der Angestelltenverdienste:

Die Indizes der durchschnittlichen Bruttomonatsverdienste der Angestellten schalten den Einfluß der Veränderungen in der Zusammensetzung der Angestelltenschaft – auch im Falle eines Berichtskreiswechsels – aus und zeigen, wie sich die durchschnittlichen Bruttomonatsverdienste der Angestellten verändert hätten, wenn im jeweiligen Vergleichszeitpunkt die gleiche Struktur der Angestelltenschaft bestanden hätte wie im Basiszeitraum. Die Wertgewichte für die Wägung der Verdienstreihen wurden durch Multiplikationen der Personenzahlen in den einzelnen Angestelltingruppen mit ihrem durchschnittlichen Verdienst im Basisjahr gewonnen.

Aus den angegebenen Indexzahlen läßt sich die Indexentwicklung nach Punkten als Differenz zwischen dem neuen und alten Indexstand errechnen, die Indexentwicklung in Prozent nach der Formel

$$\frac{\text{Neuer Indexstand}}{\text{Alter Indexstand}} \times 100 - 100.$$

Beispiel: Von 1987 bis 1993 stieg der Index der durchschnittlichen Bruttostundenverdienste für alle Angestellte von 84,9 auf 109,2 d.h. um $109,2 - 84,9 = 24,3$ Punkte, aber um

$$\frac{109,2}{84,9} \times 100 - 100 = 28,6\%.$$

Die nachgewiesenen Indizes beziehen sich auf das Basisjahr 1991. Wird ein anderes Basisjahr gewünscht (Umbasierung), sind sie nach der Formel

$$\frac{\text{Index des Beobachtungsjahres}}{\text{Index des gewünschten Basisjahres}} \times 100$$

umzurechnen.

Beispiel: Für 1993 lautet der Index der durchschnittlichen Bruttostundenverdienste für alle Arbeiter auf der Basis 1986 = 100

$$\frac{109,2}{81,9} \times 100 = 133,3.$$

Wegen der Umstellung auf die neue Klassifikation der Wirtschaftsprise können für 1996 noch keine Indizes bekannt gegeben werden.

Erläuterung zu Tabelle 2 des Tabellenteils

Die %-Zahlen beziehen sich:

Bei den Leistungsgruppen auf die Gesamtzahl der männlichen bzw. weiblichen Angestellten einer Beschäftigungsart eines Wirtschaftszweiges, bei den männlichen Angestellten zus. bzw. weiblichen Angestellten zus. auf die Gesamtzahl der Angestellten einer Beschäftigungsart eines Wirtschaftszweiges, bei allen Angestellten einer Beschäftigungsart eines Wirtschaftszweiges auf die Gesamtzahl der Angestellten dieser Beschäftigungsart in Industrie, Handel, Kredit- und Versicherungsgewerbe.

¹⁾Klassifikation der Wirtschaftszweige, Ausgabe 1993 (WZ 93)

Fachserie 16: Löhne und Gehälter

Reihe 1: Verdienste der Arbeiter und Arbeiterinnen in der Landwirtschaft

In dem jährlich erscheinenden Bericht werden durchschnittliche Bruttoverdienste und bezahlte Stunden der Arbeiter in landwirtschaftlichen Betrieben und aller Arbeiter im Erwerbsgartenbau nachgewiesen. Diese Reihe enthält Angaben für die Bundesrepublik Deutschland (ohne Berlin-West, Bremen, Hamburg und das Saarland) nach dem Gebietsstand bis zum 3.10.1990. Ab dem Berichtsjahr 1994 werden in dieser Veröffentlichung auch die Angaben für die neuen Länder nachgewiesen.

Reihe 1.S.1: Arbeiterverdienste in der Landwirtschaft in den neuen Ländern

Dieser unregelmäßig erscheinende Bericht enthält Angaben für die Länder Brandenburg, Mecklenburg-Vorpommern, Sachsen, Sachsen-Anhalt sowie Thüringen.

Reihe 2: Arbeitnehmerverdienste im Produzierenden Gewerbe, Handel, Kredit- und Versicherungsgewerbe

Die Feststellungen werden für die Monate Januar, April, Juli und Oktober getroffen. Vorab erscheint jeweils ein Eilbericht mit ausgewählten Eckdaten für die nachfolgenden Reihen 2.1 und 2.2.

Reihe 2.1: Arbeiterverdienste im Produzierenden Gewerbe

Der Vierteljahresbericht bringt Angaben über durchschnittliche Bruttoverdienste und bezahlte Wochenstunden, gegliedert nach drei Leistungsgruppen, Geschlecht, Wirtschaftszweigen und Ländern. Weiterhin werden die Indizes der durchschnittlichen Bruttoverdienste und bezahlten Wochenstunden der Arbeiter nachgewiesen.

Reihe 2.2: Angestelltenverdienste im Produzierenden Gewerbe, Handel, Kredit- und Versicherungsgewerbe

Der vierteljährlich erscheinende Bericht bringt Angaben über durchschnittliche Bruttoverdienste in der Gliederung nach kaufmännischen und technischen Angestellten, vier Leistungsgruppen, Geschlecht, Wirtschaftszweigen und Ländern. Darüber hinaus werden Indizes der durchschnittlichen Bruttomonatsverdienste nachgewiesen.

Reihe 2.3: Arbeitnehmerverdienste im Produzierenden Gewerbe, Handel, Kredit- und Versicherungsgewerbe

Der vierteljährlich erscheinende Bericht enthält Angaben über die Struktur und die durchschnittlichen Bruttomonatsverdienste der Arbeiter und Angestellten zusammen, gegliedert nach Geschlecht, Wirtschaftszweigen und Ländern.

Reihe 3: Arbeiterverdienste im Handwerk

In dem *jährlich* (bis November 1993 halbjährlich erschienen) erscheinenden Bericht werden für den Monat Mai (bis Ausgabe November 1993: Mai und November) Angaben über durchschnittliche Bruttoverdienste und bezahlte Wochenstunden der männlichen Arbeiter in der Gliederung nach drei Arbeitergruppen, neun Handwerkszweigen sowie nach Bundesländern veröffentlicht.

Reihe 4: Tariflöhne und -gehälter

Jeweils halbjährlich werden Lohn- und Gehaltssätze sowie ausgewählte Tarifregelungen aus den wichtigsten Tarifverträgen zusammengestellt.

Reihe 4.1: Tariflöhne

Die nach Wirtschaftszweigen gegliederte Veröffentlichung berichtet ab der Ausgabe Oktober 1990 sowohl für das frühere Bundesgebiet als auch für die neuen Länder und Berlin-Ost über ausgewählte Lohntarifverträge. Für diese werden die Laufzeit, Tariflohnsätze der höchsten, niedrigsten sowie ausgewählter wichtiger Lohngruppen dargestellt. Außerdem enthält die Publikation Nachweisungen über die bedeutendsten tariflichen Regelungen wie Arbeitszeit, Urlaubsregelungen, Sonderzahlungen, Pauschalen u.ä.

Reihe 4.2: Tarifgehälter

Diese Reihe vermittelt einen Einblick in die tarifliche Gehaltsentwicklung. Ab Oktober 1990 erstreckt sich die Darstellung der wichtigsten Gehaltstarife auf das frühere Bundesgebiet und auf die neuen Länder und Berlin-Ost. Nachgewiesen werden Laufzeit, die tariflichen Anfangs- und Endgehälter der höchsten, niedrigsten sowie ausgewählter wichtiger Gehaltsgruppen, Arbeitszeit, Urlaubsregelung, Sonderzahlungen, Pauschalen usw.

Reihe 4.3: Index der Tariflöhne und -gehälter

In der vierteljährlich erscheinenden Reihe werden (anhand von Tarifsätzen ausgewählter Tarifverträge berechnete) Indizes der Stunden- und Wochenlöhne sowie der Monatsgehälter und der Wochenarbeitszeiten, jeweils gegliedert nach Wirtschaftszweigen und Geschlecht, veröffentlicht.

Reihe 4.4: Dienstbezüge der Bundesbeamten

In unregelmäßiger Erscheinungsfolge (jeweils nach Änderungsgesetzen zum Bundesbesoldungsgesetz) werden Grundgehälter nach Besoldungsgruppen und Dienstaltersstufen sowie Ortszuschläge nachgewiesen.

Reihe 5: Löhne, Gehälter und Arbeitskosten im Ausland

In der jährlich erscheinenden Publikation wird über Stand und Entwicklung der Effektivverdienste sowie der Tariflöhne und -gehälter im Ausland berichtet.

Es werden Bruttostundenverdienste und Wochenarbeitszeiten der Arbeiter sowie Bruttomonatsverdienste der Angestellten für etwa 30 Länder in der

Gliederung nach Wirtschaftszweigen dargestellt. Für einen Teil der Länder werden außerdem Arbeitskostenangaben veröffentlicht. Die Daten werden durch eine kurze methodische Vorbemerkung erläutert.

Zusätzlich werden Tariflohnsätze und/oder Tariflohnindizes nach Wirtschaftszweigen sowie Tariflohnsätze für ausgewählte Berufe für etwa 20 Länder veröffentlicht.

Reihe 6: Betriebliche Altersversorgung

In unregelmäßigen Zeitabständen werden Erhebungen über Art und Umfang der betrieblichen Altersversorgung durchgeführt. Erstmals nach 1976 werden für das frühere Bundesgebiet zum Stichtag 31.12.1990 mit Hilfe zweier zeitlich hintereinandergeschalteter, aber aufeinander abgestimmter Stichprobenerhebungen bei den Unternehmen fast aller Wirtschaftsbereiche wieder Strukturdaten zur betrieblichen Altersversorgung dargestellt.

Reihe 6.1: Erhebung über Art und Umfang der betrieblichen Altersversorgung – 1. Erhebung zum Stichtag 31.12.1990

Diese Veröffentlichung stellt gemessen anhand der Unternehmens- und Arbeitnehmerzahlen, vor allem Daten zur Verbreitung der betrieblichen Altersversorgung bereit, und zwar gegliedert nach Wirtschaftsbereichen, Unternehmensgröße, Arbeitnehmergruppen, teil- und vollzeittätigen Arbeitnehmern, Geschlecht der Arbeitnehmer und nach den Durchführungsformen der betrieblichen Altersversorgung.

Reihe 6.2: Erhebung über Art und Umfang der betrieblichen Altersversorgung – 2. Erhebung zum Stichtag 31.12.1990

Darin werden neben einigen Eckzahlen zur Verbreitung der betrieblichen Altersversorgung (endgültige Ergebnisse aus der 1. Erhebung) vor allem Ergebnisse hinsichtlich der Anpassung der Anwartschaften und der Betriebsrenten an die wirtschaftliche Entwicklung, der Rentenbestände, der in den letzten zehn Jahren seit 1981 an der betrieblichen Altersversorgung vorgenommenen Änderungen, der Höhe der Bruttomonatsrenten nach Rentenarten je Rentenfall und je Rentner, ebenso der Höhe einmaligen Kapitalleistungen und der im Jahr 1990 gezahlten betrieblichen Versorgungsleistungen sowie der von der betrieblichen Altersversorgung gebundenen Kapitalien, den sog. Deckungskapitalien, und der Aufwendungen für die betriebliche Altersversorgung, meist in der Gliederung nach Wirtschaftsbereichen und Unternehmensgrößen und, soweit möglich, auch nach den Durchführungsformen der betrieblichen Altersversorgung.

Gehalts- und Lohnstrukturerhebung 1990

Diese Erhebung liefert erstmals seit 1978 für das frühere Bundesgebiet wieder tiefgegliederte Angaben über Verdienste und Arbeitszeiten im Produzierenden Gewerbe, Handel sowie Bank- und Versicherungsgewerbe. Für die neuen Länder und Berlin-Ost wurde diese Erhebung erstmals im Mai 1992 durchgeführt und gesondert veröffentlicht.

Bisher erschienen:

- Heft 1 Ausgewählte Strukturdaten im Produzierenden Gewerbe, im Groß- und Einzelhandel, Bank- und Versicherungsgewerbe
- Heft 2 Arbeiterverdienste nach Wirtschaftszweigen und ausgewählten Merkmalen
- Heft 3 Angestelltenverdienste nach Wirtschaftszweigen und ausgewählten Merkmalen

Gehalts- und Lohnstrukturerhebung in den neuen Ländern und Berlin-Ost im Mai 1992

- Heft 1 Ausgewählte Strukturdaten im Produzierenden Gewerbe, im Groß- und Einzelhandel, Bank- und Versicherungsgewerbe
- Heft 2 Arbeiterverdienste nach Wirtschaftszweigen und ausgewählten Merkmalen

Arbeitskostenerhebungen

Zu diesen, in vierjährigen Abständen, durchgeführten Erhebungen (bis 1981 unter der Bezeichnung „Personal- und Personalnebenkostenerhebungen“ veröffentlicht) werden 2 Hefte herausgegeben:

- Heft 1 Arbeitskosten im Produzierenden Gewerbe 1992
- Heft 2 Arbeitskosten in ausgewählten Dienstleistungsbereichen 1992

Zum Wirtschaftsstandort Deutschland – Informationen aus 1. Hand

Statistisches Bundesamt

Ob in Buchform oder auf CD-ROM, das Statistische Jahrbuch ist ein kompetenter und zuverlässiger Partner für alle, die sich über das wirtschaftliche, soziale und kulturelle Leben in Deutschland informieren wollen. Daneben sind Strukturdaten über die Mitgliedstaaten der Europäischen Union und Vergleichszahlen von Japan und den Vereinigten Staaten hilfreich für die Standortbestimmung Deutschlands. Detailliertes und vergleichendes Zahlenmaterial über fast alle Länder der Erde gewährt Einblick in die jeweiligen ökonomischen, ökologischen und bevölkerungspolitischen Verhältnisse.
