## Vorbemerkung

Die Prüfungen an Hochschulen werden nach dem Gesetz über eine Bundesstatistik für das Hochschulwesen (Hochschulstatistikgesetz - HStatG) in der Fassung der Bekanntmachung vom 21. April 1980 (BGBl. I S. 453) erfaßt. Neben einer summarischen Erhebung der Abschlußprüfungen aufgrund von Meldungen der Hochschulen sowie der staatlichen und kirchlichen Prüfungsämter ist gemäß § 9 Abs. 1 HStatG auch eine Individualbefragung der Prüfungskandidaten vorgesehen. Die summarische Erhebung (Befragung der Prüfungsämter) wird seit dem Wintersemester 1972/73 durchgeführt. Die Bundesergebnisse liegen bis zum Berichtsjahr 1979 in Fachserie 11, Reihe 4.2 sowie in anderen Veröffentlichungen des Statistischen Bundesamtes vor. Die Erhebungen für die Individualstatistik der Prüfungskandidaten haben bundeseinheitlich erst 1975/76 begonnen; ihre Ergebnisse waren bisher nur für einzelne Bundesländer in den Berichten der Statistischen Landesämter verfügbar.

Die vorliegende Arbeitsunterlage enthält ausgewählte Bundesergebnisse dieser Prüfungs-Individualstatistik für das Berichtsjahr 1977 (Wintersemester 1976/77 und Sommersemester 1977), für das erstmals Ergebnisse aus allen Bundesländern vorlagen. Das Bundesergebnis wurde aufgrund der von den Statistischen Landesämtern gelieferten Unterlagen zusammengestellt. Diese Daten enthalten z.T. noch Lücken und Mängel, um deren Behebung die statistischen Ämter und die Erhebungsstellen sich bemühen. Wegen der noch unvollständigen Erfassung liegen die Ergebnisse der Individualstatistik je nach Prüfungsgruppe um etwa 10 bis 15 % niedriger als die der summarischen Prüfungsmeldungen.

Trotzdem können aus dieser neuen Statistik wegen ihres umfassenderen Merkmalskatalogs schon jetzt wichtige Zusatzinformationen gewonnen werden.

- Die Erhebung liefert Angaben zur Person und zum Studienverlauf der Prüfungskandidaten.
- Anstelle der bisherigen Zählung von Prüfungsfällen, wird auch bei Lehramtsstudiengängen die Personenzahl der Absolventen erfaßt.
- Die Ergebnisse können nach Hochschularten getrennt nachgewiesen werden.

Im Gegensatz zur summarischen Prüfungsstatistik (Meldungen der Prüfungsämter), die Prüfungsfälle nachweist, liefert die Individualstatistik Angaben über Prüfungskandidaten (Personenzählung). Deshalb ist ein Vergleich der Ergebnisse beider Statistiken - vor allem bei den Lehramtsstudiengängen - nur schwer möglich. In der Untergliederung nach Studienfächern ergeben sich weitere Unterschiede daraus, daß aus der Individualbefragung nur das angegebene 1. Studienfach der Kandidaten in den Tabellen dargestellt wird.

Aus der Vielzahl möglicher Auswertungen werden im Tabellenteil nur wenige wichtige Ergebnisse berücksichtigt. Die Studiengänge sind nicht in der tiefsten Untergliederung (Studienfächer und Prüfungsart) dargestellt, sondern ganz oder teilweise zu Studienganggruppen zusammengefaßt (siehe hierzu auch die Begriffserläuterungen und die Übersichten im Anhang).

Tabelle 1 enthält Gesamtzahlen für abgelegte Prüfungen (Deutsche und ausländische Kandidaten mit bestandener oder nicht bestandener Abschlußprüfung) in der Gliederung nach Prüfungsgruppen und dem 1. Studienfach. Die anderen Tabellen enthalten Ergebnisse für deutsche Absolventen (deutsche Kandidaten mit bestandener Abschlußprüfung); Tabelle 2 stellt, gegliedert nach Prüfungsarten und Fächergruppen/Studienbereichen des 1. Studienfachs, die Studiendauer (Verteilung nach Fachsemestern) im Studiengang der Abschlußprüfung dar. In Tabelle 3 - stärker zusammengefaßt nach Prüfungs- und Fächergruppen bzw. Studienbereichen - sind Durchschnittsangaben zur Studiendauer (Fachsemester), zum Alter der Absolventen und zur Verweildauer bis zum Studienabschluß nebeneinander gestellt.

Es ist beabsichtigt, gleichartige Arbeitsunterlagen auch für die Berichtsjahre ab 1978 vorzulegen, solange die Berichte der Fachserie 11, Reihe 4.2 keine Ergebnisse der Individualstatistik enthalten (Anfragen werden unmittelbar an das Statistische Bundesamt, Gruppe VII C, Postfach 5528, 6200 Wiesbaden 1, erbeten).

## Erläuterungen

### Prüfungskandidaten:

Der Fragebogen wird von den Prüfungskandidaten bei der Meldung zu einer Abschlußprüfung ausgefüllt (s. Anhang, S.208). Nach Abschluß des Prüfungsverfahrens vervollständigt die Hochschule oder das zuständige Prüfungsamt den Fragebogen (Datum des Abschlusses und Erfolg der Prüfung). Die vollständigen Bogen mit den Angaben über Absolventen (Kandidaten mit bestandener Abschlußprüfung) und über Kandidaten mit abgeschlossener, nicht bestandener Prüfung werden semesterweise für die Statistik ausgewertet. Die Zahl der "Absolventen" ist nicht identisch mit derjenigen der Hochschulabgänger, die nach Studienabschluß die Hochschulen verlassen. Ein Teil der Absolventen verbleibt z.B. wegen Aufnahme eines Zweit-, Aufbau- oder Ergänzungsstudiums weiterhin an der Hochschule. Erhebungsbogen von Kandidaten, deren Prüfungen noch nicht abgeschlossen sind oder die ihre Meldung zur Prüfung zurückziehen, werden nicht bzw. erst später (nach Abschluß, ggf. nach erneuter Meldung) ausgewertet.

### Hochschulen und Prüfungsämter:

Erhebungsstellen sind die Hochschulen sowie die staatlichen und kirchlichen Prüfungsämter. Die Hochschulprüfungen werden, je nach der Organisation der Verwaltung und zum Teil nach der Art der Abschlußprüfung unterschiedlich, von den zentralen Prüfungsämtern oder von Prüfungsausschüssen innerhalb der Fakultäten, Fachbereiche usw. gemeldet. Erfasst werden

- Universitäten (einschl. der technischen Universitäten, technischen Hochschulen und anderer wissenschaftlicher Hochschulen mit Universitätsrang)
- Gesamthochschulen
- Pädagogische Hochschulen
- Theologische und kirchliche Hochschulen
- Kunsthochschulen
- Fachhochschulen.

Da die staatlichen und kirchlichen Prüfungsämter teilweise für Studenten mehrerer Hochschulen zuständig sind, wird in der summarischen

Prüfungstatistik keine getrennte Nachweisung der Hochschularten vorgenommen. In der Individualstatistik liegen jedoch Angaben über die zuletzt besuchte Hochschule vor, so daß die Tabellen nach Hochschularten gegliedert werden können. Einige Prüfungen werden als eigene Gruppe "ohne Angabe" nachgewiesen, da die zuletzt besuchte Hochschule entweder nicht bekannt ist oder nicht zugeordnet werden kann (z.B. bei Auslandsstudium).

### Abschlußprüfungen:

Prüfungen werden erfasst, soweit sie eine Hochschulausbildung abschließen; Vor- und Zwischenprüfungen an Hochschulen sind in den Tabellen nicht enthalten, wohl aber Abschlüsse von Aufbau-, Ergänzungs-, Zusatz- und Zweitstudiengängen, sofern sie zu einer Prüfung führen. Entsprechend werden Prüfungen bei staatlichen und kirchlichen Prüfungsämtern als Abschluß eines Hochschulstudiums erfragt, nicht dagegen z.B. die zweite Staatsprüfung am Ende der Referendarausbildung.

Absolventen von wissenschaftlichen Studiengängen legen meist Diplom- oder Staatsprüfungen (einschl. Lehramtsprüfungen) ab. Promotionen setzen häufig eine andere erste Abschlußprüfung voraus, können aber auch der erste Studienabschluß sein. Kunsthochschulstudien werden z.T. mit Diplom- oder Staatsprüfungen abgeschlossen, z.T. legen die Absolventen keine förmliche Prüfung ab. Das Studium an Fachhochschulen führt zur Graduierung (auch Diplomprüfungen an Fachhochschulen sind in dieser Prüfungsgruppe nachgewiesen). Übersicht 1 des Anhangs (S. 212) enthält die erfaßten Prüfungsarten. Eine Unterscheidung der Prüfungen, die einen ersten berufsqualifizierenden Studienabschluß darstellen, von Prüfungen, die ein Zweitstudium abschließen, ist oft nicht möglich (so gibt es Diplom-, Magister- und Lehramtsstudiengänge auch als Aufbaustudium).

### Zu einzelnen Abschlußprüfungen:

Lizentiat: Einschl. Prüfungen nach französischer Norm im Saarland (Licence d'Allemand, Licence de Lettres Modernes usw.).

Staatsexamen (ohne Lehramtsprüfungen): Mit erfaßt sind einige staatliche Prüfungen für kürzere Studiengänge (Dolmetscher, Übersetzer), die sonst zur Gruppe der Graduierungen gerechnet werden.

Sonstige Lehrämter: In Hamburg "Lehramt für Volks- und Realschulen".

Künstlerischer Abschluß: Studienabschluß an Kunsthochschulen (ohne Lehramts-, Konzert-/ Bühnenreifeprüfung usw.). Meldungen liegen nur vor, soweit eine Prüfung erfolgt. Erfolgreiche Absolventen in einigen Studiengängen, insbesondere der bildenden Kunst, verlassen die Hochschulen ohne Prüfung.

#### Studienfächer:

Die Übersichten 2 und 3 im Anhang (S. 213 ff) enthalten den 1977 gültigen Studienfachschlüssel des Statistischen Bundesamtes und die für die Hochschulstatistik verwendete Systematik der Fächergruppen und Studienbereiche.

#### Studiendauer:

Die Tabelle 3 enthält Durchschnittsangaben über das Alter und die Studiendauer der Kandidaten, bezogen auf das Semester des Prüfungsabschlusses:

- Zeit zwischen Erwerb der Hochschulzugangsberechtigung bzw. Erstimmatrikulation und Abschluß
- Verweildauer (Hochschulsemester) als Gesamtdauer des Studiums einschl. Studiengangwechsel, Zweitstudium usw.
- Zeiten der Studienunterbrechung oder Beurlaubung sowie Studium außerhalb des Bundesgebietes
- Studiendauer (Fachsemester) im Studiengang der jetzt abgelegten Abschlußprüfung.

Die Angaben erfolgen einheitlich in Jahren, wobei die durchschnittlichen Studienzeiten aus ganzzahligen Semesterwerten errechnet werden.
