Ausgegeben am 14. 10. 1992

Bevölkerungsentwicklung in den Gemeinden Schleswig-Holsteins

1991

Zuständiger Dezernent: Winck

Dieser Bericht enthält für jede schleswig-holsteinische Gemeinde den Bevölkerungsstand am 31. Dezember 1990, dessen Veränderung durch Geburten, Sterbefälle, Zu- und Fortzüge im Jahr 1991 und das dadurch entstandene Fortschreibungsergebnis zum 31. Dezember 1991, jeweils nach dem Geschlecht.

Hinweis:

Bevölkerungszahlen nach dem 25. Mai 1987 werden durch Fortschreibung des festgestellten Volkszählungsergebnisses vom 25. Mai 1987 mit den Zu- und Fortzügen (Wanderungsstatistik) und den Geburten und Sterbefällen (Statistik der natürlichen Bevölkerungsbewegung) gemeindeweise ermittelt. Für die Statistik der natürlichen Bevölkerungsbewegung werden Zählblätter der Standesbeamten über beurkundete Geburten und Sterbefälle ausgewertet; Grundlage der Wanderungsstatistik sind die bei den Meldebehörden anfallenden Meldescheine und Erklärungen über die Aufgabe bzw. Änderung der Hauptwohnung. Leider wird nicht bei allen Meldevorgängen nach den Vorschriften des Meldegesetzes gehandelt, besonders nicht, wenn Personen mehrere Wohnungen haben. Diese Fehler gehen auch in die Ergebnisse der Statistik ein, wodurch die fortgeschriebenen Bevölkerungszahlen überhöht oder zu niedrig sein können.

Fortschreibungsrelevante Bevölkerungsveränderungen aufgrund von Korrekturen werden in diesem Bericht als Zu- und Fortzüge ausgewiesen. Dagegen werden sie in der Wanderungsstatistik - Statistische Berichte A III 1 und A III 2 - nicht berücksichtigt, da sie im eigentlichen Sinne keine Wanderungen sind. Im Jahre 1991 wurden in Flensburg 1 Zuzug und 1 Fortzug und im Kreis Pinneberg 7 Zuzüge in Elsmhorn und 7 Fortzüge in Kölln-Reisiek als Korrekturen verbucht.
