## Bevölkerungsentwicklung im Land Brandenburg 1998 gegenüber 1997

## Vorbemerkung

Bezogen auf den Gebietsstand vom 31.12.1998 gliedert sich das Land Brandenburg in 4 kreisfreie Städte und 14 Landkreise mit 1 485 Gemeinden. Davon befinden sich 249 Gemeinden (fast 17 Prozent) im engeren Verflechtungsraum Brandenburg-Berlin (eVr).

Der engere Verflechtungsraum ist Teil des gemeinsamen Planungsraumes Berlin-Brandenburg beider Länder und wird aus Berlin und dem zusammenhängenden Teilraum des Landes Brandenburg gebildet, der strukturell am engsten mit dem Land Berlin verbunden ist.

Der am 11. November 1994 beschlossene Entwurf des Landesplanungsvertrages zwischen den Ländern Berlin und Brandenburg legt im Artikel 7, Abs. 3 die dazugehörigen Gebietskörperschaften fest.

In dieser Veröffentlichung wird für jede Gemeinde des Landes Brandenburg die Bevölkerungsbilanz des Jahres 1998 dargestellt. Das heißt, es wird ausgehend vom Bevölkerungsbestand am Jahresanfang die Bevölkerungsbewegung (Geburten, Sterbefälle, Zu- und Fortzüge) des Jahres 1998 aufgezeigt.

In der 1. Übersicht nach Landkreisen sind die Wanderungen über die Kreisgrenze ausgewiesen. Im 2. Teil (Gemeindeergebnisse) werden auch für den Landkreis die Wanderungen über die Gemeindegrenzen dargestellt.

Die beigegefügte Bezeichnung „Stadt“ als Kennzeichnung verliehener Stadtrechte gehört nicht zur amtlichen Schreibweise des Gemeindepensens.

Am 31.12.1998 lebten im Land Brandenburg 2 590 375 Personen mit Hauptwohnsitz bzw. alleiniger Wohnung. Der Bevölkerungsanstieg seit Jahresbeginn um 17 084 Personen resultierte überwiegend aus den positiven Wanderungssalden gegenüber Berlin. Davon profitierten insbesondere die Gemeinden des engeren Verflechtungsraumes. Hier stieg die Bevölkerungszahl im Vergleich zum Vorjahr um 31 788 Personen.

In den vier kreisfreien Städten war nach wie vor ein Bevölkerungsrückgang zu verzeichnen. Nur in den 8 an Berlin angrenzenden Landkreisen lebten am Jahresende mehr Personen als am Jahresanfang. Hier konnten die natürlichen Bevölkerungsverluste (Sterbeüberschüsse) durch die Zuwanderungen kompensiert werden. Die peripheren Landkreise mussten hingegen einen Bevölkerungsrückgang hinnehmen.
