Introduction

- I General summary of sections and divisions
- II Imports and Exports by groups and by countries
- III Imports and Exports of selected items by countries
- IV Imports and Exports by countries and by groups

Introduction =====

- 1). Designation of groups and countries are given in abbreviated form.
- 2). For the purpose of comparability and for details refer to the supplement: " SITC-groups and their corresponding numbers of the German Statistical Classification of Commodities for Foreign Trade " (issued together with the report for the month of February 1951).

Where it has been impossible to make a close statistical fit a " X " is shown behind the text of the SITC-groups indicating that the given values for the group concerned are unsatisfactory.

- 3). Gold for technical purposes and silver coins which fall under the heading of German Special Trade are given under group 999. Gas and electricity are not covered, however, by the statistics of German Foreign Trade.
- 4). Countries of which the imports and exports do not amount to more than \$ 10 000 are not published in surveys II and III. Likewise, groups which are below the exemption limit of \$ 10 000 are deleted in survey IV.
- 5). For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Destination" refer to the introductory notes of part 2 of:

"Der Aussenhandel der Bundesrepublik Deutschland".

- 6). Datas are preliminary only.
