Introduction

- - - - -

- 1.) In this special publication figures are given for the first quarter and half-year of 1951 showing also values of less than \$ 10 000. Beginning September 1951 these data are included in the series for the respective month ending the period concerned.
- 2.) Designation of groups and countries are given in abbreviated form.
- 3.) For the purpose of comparability and for details refer to the supplement: "SITC-groups and their corresponding numbers of the German Statistical Classification of Commodities for Foreign Trade" (issued together with the report for the month of February 1951).

Where it has been impossible to make a close statistical fit a "X" is shown behind the text of the SITC-groups indicating that the given values for the group concerned are unsatisfactory.

- 4.) Gold for technical purposes and silver coins which fall under the heading of German Special Trade are given under group 999. Gas (group 314), electricity (group 315), postal packages (group 911) and returned goods and special transactions (group 931) are not covered, however, by the statistics of German Foreign Trade.
 - 5.) For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Destination" refer to the introductory notes of part 2 of:
"Der Außenhandel der Bundesrepublik Deutschland".
 - 6.) Data are preliminary only.
