Introduction

Table I	General summary of sections and divisions
Table II	Imports and Exports by groups and by countries
Table III	Imports and Exports of selected items by countries
Table IV	Imports and Exports by countries and by groups

Introduction

- - - - -

- 1.) Designation of groups and countries are given in abbreviated form.
- 2.) For the purpose of comparability and for details refer to the supplement: "SITC-groups and their corresponding numbers of the German Statistical Classification of Commodities for Foreign Trade" (issued together with the report for the month of February 1951).

Where it has been impossible to make a close statistical fit a " X " is shown behind the text of the SITC-groups indicating that the given values for the group concerned are unsatisfactory.

- 3.) Gold for technical purposes and silver coins which fall under the heading of German Special Trade are given under group 999. Gas (group 314), electricity (group 315), postal packages (group 911) and returned goods and special transactions (group 931) are not covered, however, by the statistics of German Foreign Trade.
 - 4.) Countries of which the imports and exports amount to less than \$ 10 000 are not published in tables II and III. Likewise, groups which are below the exemption limit of \$ 10 000 are deleted in table IV.
 - 5.) For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Destination" refer to the introductory notes of part 2 of:
" Der Außenhandel der Bundesrepublik Deutschland".
 - 6.) Data are preliminary only.
