### Introduction

Table I	General summary of sections and divisions
Table II	Imports and Exports by groups and by countries
Table III	Imports and Exports of selected items by countries
Table IV	Imports and Exports by countries and by groups

## Introduction

- 1.) The reports are published monthly. The report ending a quarter contains - beginning with September 1951 - the monthly data as well as the cumulative data of the period ended.

For the first quarter and half-year of 1951 the cumulative data were given in a special publication (Arb.Nr.V/29/6a).

- 2.) In the reports containing only monthly data countries of which the imports and exports amount to less than \$ 10 000 are not published in tables II and III. Likewise, groups which are below the exemption limit of \$ 10 000 are deleted in table IV.

In the reports containing also cumulative data, however, values of less than \$ 10 000 are shown in the monthly figures as well as in the cumulative figures.

- 3.) Designation of groups and countries is given in abbreviated form.
- 4.) For the purpose of comparability and for details refer to the supplement: "SITC-groups and their corresponding numbers of the German Statistical Classification of Commodities for Foreign Trade" (issued together with the report for the month of February 1951).

Where it has been impossible to make a close statistical fit a " X " is shown behind the text of the SITC-groups indicating that the given values for the group concerned are unsatisfactory.

- 5.) Gold for technical purpose and silver coins which fall under the heading of German Special Trade are given under group 999. Gas (group 314) and electricity (group 315) are not covered, however, by the statistics of German Foreign Trade.
- 6.) For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Destination" refer to the introductory notes of part 2 of:

" Der Aussenhandel der Bundesrepublik Deutschland ".

- 7.) Data are preliminary only.
