Introduction

Notes about the definition of countries for the
year of 1950

Table I General summary of sections and divisions

Table II Imports and Exports by groups and by countries

Introduction

- - - - -

- 1.) In this publication data are given for the year of 1950.
It contains - in contrast to the monthly reports of the year of 1951 - only table I: General summary of sections and divisions and table II: Imports and Exports by groups and by countries.
These tables show also values of less than \$ 10 000.
- 2.) Designation of groups and countries is given in abbreviated form.
- 3.) For the purpose of comparability and for details refer to the supplement: "SITC-groups and their corresponding numbers of the German Statistical Classification of Commodities for Foreign Trade" (issued together with the report for the month of February 1951).
Where it has been impossible to make a close statistical fit a " X " is shown behind the text of the SITC-groups indicating that the given values for the group concerned are unsatisfactory.
- 4.) Gold for technical purposes and silver coins which fall under the heading of German Special Trade are given under group 999. Gas (group 314) and electricity (group 315) are not covered, however, by the statistics of German Foreign Trade.
- 5.) For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Destination" refer to the introductory notes of part 2 of:
" Der Aussenhandel der Bundesrepublik Deutschland ".
- 6.) Data are preliminary only.
