Table III Imports and Exports of selected items by countries	242
Table IV Imports and Exports by countries and by groups	284

Introduction

- - - - -

- 1) The reports are published monthly. The report ending a quarter contains - beginning with September 1951 - the monthly data as well as the cumulative data of the period ended.
For the first quarter and half-year of 1951 the cumulative data were given in a special publication (Arb. Nr. V/29/6a).
- 2) In the reports containing only monthly data countries of which the imports and exports amount to less than \$ 10 000 are not published in tables II and III. Likewise, groups which are below the exemption limit of \$ 10 000 are deleted in table IV. In the reports containing also cumulative data, however, values of less than \$ 10 000 are shown in the monthly figures as well as in the cumulative figures.
- 3) Designation of groups and countries is given in abbreviated form.
- 4) For the purpose of comparability and for details refer to the supplement containing the SITC-items and their corresponding numbers of the new German Classification of Commodities for Statistics of Foreign Trade (issued together with the report for the month of October 1951).
- 5a) Gold for technical purposes which falls under the heading of German Special Trade is shown in group 999.
- b) Manufactured gas (item 31402), electric energy (item 31501), returned goods (item 93101) and special transactions (item 93102) are not covered by the statistics of German Foreign Trade.
- c) The commodities of the items 02909, 71602 and 91101 are included in other items.
- 6) For definition of the terms "Area Covered", "Special Trade", "Quantities", "Values", "Countries of Origin and Consumption" refer to the introductory notes of part 2 of:
" Der Aussenhandel der Bundesrepublik Deutschland".
- 7) Data are preliminary only.
