Vorbemerkung

Die "Zahlen zur Montanunion" enthalten ausgewählte Zahlenreihen über wichtige wirtschaftliche Tatbestände und Vorgänge, die für eine Beobachtung der Entwicklung innerhalb der Montanunion sowie der Vergleichsländer Großbritannien und USA von besonderer Bedeutung sind oder brauchbare Anhaltspunkte bieten.

Das nach Ländern der Montanunion aufgegliederte Zahlenmaterial erstreckt sich hauptsächlich auf den Steinkohlenbergbau, den Eisenerzbergbau sowie die Eisen- und Stahlindustrie. In erster Linie werden die im Vertrag über die Gründung der Europäischen Gemeinschaft für Kohle und Stahl genannten Erzeugnisse berücksichtigt, wobei Erzeugung und Förderung, Rohstoffverbrauch und -versorgung sowie Bezüge und Lieferungen im Vordergrund stehen. Darüberhinaus werden Bestände, Belegschaft, Löhne und allgemeine Wirtschaftszahlen dargestellt.

Die Zahlen entstammen größtenteils den Veröffentlichungen der Länder und des Statistischen Amtes der Europäischen Gemeinschaften. Wegen Benutzung verschiedener Quellen sind die Zahlen mit anderen Veröffentlichungen des Statistischen Bundesamtes nicht immer vergleichbar.

Für die einzelnen Länder gilt der jetzige Gebietsstand.

Die Reihen werden monatlich auf den neuesten Stand gebracht und laufend - ohne besondere Kennzeichnung - berichtigt. Die sich bei der Aufrechnung der einzelnen Zahlen ergebenden Differenzen mit den Summen sind auf Abrundungen zurückzuführen.

Bei den Angaben über die Erzeugung von Roheisen und Rohstahl handelt es sich um die Netto-Erzeugung, d.h. bei Roheisen ohne umgeschmolzenes Roheisen und bei Rohstahl ohne Vorschmelzstahl. Beim "Außenhandel" (Einfuhr und Ausfuhr) ist beim Bundesgebiet der Warenverkehr mit der Deutschen Demokratischen Republik und Berlin (Ost) nicht einbezogen.

Als Maßeinheit gilt das metrische System.
