Preliminary notes

1. The draft of an English Translation of the Commodity Classification for Foreign Trade Statistics (Edition 1954) is herewith presented.
2. In case of doubt and ambiguity of the text only the original German version of the Classification for Foreign Trade Statistics is to be regarded as authentic in every case.
3. Users of this Classification are recommended to communicate to the Statistisches Bundesamt any suggestions for improvement of the translation.
4. Abbreviations:
n.e.s. - not elsewhere specified or included.

Vorbemerkungen

1. Hiermit wird der Entwurf einer englischen Übersetzung des Warenverzeichnisses für die Außenhandelsstatistik (Ausgabe 1954) vorgelegt.
2. In Zweifelsfällen und bei Unklarheiten des Textes ist in jedem Fall die ursprüngliche deutsche Fassung des Warenverzeichnisses für die Außenhandelsstatistik maßgebend.
3. Es wird gebeten, etwaige Vorschläge zur Verbesserung der Übersetzung an das Statistische Bundesamt zu richten.
4. Abkürzungen:
n.e.s. - not elsewhere specified or included.

Section XVII

Vehicles and transport equipment =====

General notes.

1. The statistical reporting of road vehicles, air craft und ships applies not only to the vehicles themselves but also to the accessories imported or exported with them (e.g. boilers, propulsion machinery, electrical equipment and instruments) provided they are usually regarded as normal fixtures of such vehicles.
 2. The following articles are excluded from this Section:
 - A. In all cases:
 - a) Mobile motor pumps, compressors, ladders, cranes or other lifting or handling apparatus of a kind running on rails only (Chapter 84);
 - b) Electrical signalling equipment for railways (Chapter 85);
 - c) Childrens' vehicles (Chapter 97).
 - B. When they do not form a normal part of the equipment of the vehicle with which they are imported or exported or when they are imported or exported separately:
 - a) Rubber tyres, covers or matting (Chapter 40);
 - b) Springs, transmission chains (Chapter 73 and 74);
 - c) Base metal non-electric lighting fixtures (Chapter 83);
 - d) Steam-generating boilers, including auxiliary boiler appliances and accessories; internal combustion engines and reaction engines and parts thereof; ladders, cranes and other lifting- or handling apparatus designed for equipping special vehicles; bearings of all kinds (Chapter 84);
 - e) Electrical generators and motors, accumulators and primary batteries and cells, electric ignition, self-starting, lighting or signalling equipment for cycles, motor vehicles, aircraft or motor-vessels, wireless equipment or other electrical equipment and fittings for vehicles (Chapter 85);
 - f) Counting and metering apparatus, measuring instruments, navigational and other similar instruments (Chapter 90);
 - g) Clocks, chronometers or watches and parts thereof (Chapter 91).
 3. Aircraft specially constructed so that they can also be used as road vehicles are classified as aircraft. Amphibious motor vehicles are classified as motor vehicles.
 4. Unless otherwise provided, the provisions of general note 2 of Section XVI concerning incomplete machines, parts of machines and unassembled machines apply to vehicles and to transport equipment falling under Section XVII.
 5. Tools forming a normal part of the equipment of a vehicle with which they are imported or exported are treated in the same manner as the corresponding vehicle.

XVII. Vehicles and transport equipment

Chapter 86

Railway and tramway locomotives, tenders and rolling stock;
railway and tramway track, fixtures and fittings;
traffic signalling equipment of all kinds,
not electrically operated

General note:

This Chapter does not include:

- a) Railway or tramway sleepers of wood (Chapter 44);
- b) Rails, sleepers, switch blades, frogs, crossings, switches, point rods, rack rails, fish plates, bed-plates, clips, gauge plates and ties for track construction (Chapter 73);
- c) Electrical parts of railway or tramway track fixtures or fittings (Chapter 85);
- d) Chains, fittings, cisterns, water tanks, window balances, locks, handles, piping and parts and accessories suitable for purposes other than the construction of rolling stock.

Locomotives of all kinds:

For track of a gauge of 100 cm. or more:

Steam:

Powered by reciprocating steam engine:

8601 11	Tender locomotives of a dead weight of 20 tons or less	tons & number
8601 12	Tender locomotives of a dead weight exceeding 20 tons	tons & number
8601 14	Locomotives with a separate tender (tow tender)	tons & number
8601 17	Powered by steam turbine	tons & number
8601 19	Fireless locomotives with high-pressure tanks	tons & number
Internal combustion and diesel:		
8601 21	With mechanical power transmission	tons & number
	With hydraulic power transmission and a nominal engine performance:	
8601 22	Of 80 h.p. or less	tons & number
8601 23	Of more than 80 h.p. up to and including 250 h.p.	tons & number
8601 24	Of more than 250 h.p. up to and including 600 h.p.	tons & number
8601 25	Of more than 600 h.p.	tons & number
	With electric power transmission (diesel-electric drive) and a nominal engine performance:	
8601 27	Of 600 h.p. or less	tons & number
8601 28	Of more than 600 h.p. up to and including 1200 h.p.	tons & number
8601 29	Of more than 1200 h.p.	tons & number

XVII. Vehicles and transport equipment

8601 30	With electric drive (power supply by overhead-drive, third rail or accumulator)	third tons & number
8601 40	With other drive (e.g. compressed-air-locomotives)	tons & number
	For track of a gauge of less than 100 cm.:	
	Steam:	
	Powered by reciprocating steam engine:	
8601 51	Tender locomotives of a dead weight of 20 tons or less	tons & number
8601 52	Tender locomotives of a dead weight of more than 20 tons	tons & number
8601 54	Locomotives with a separate tender (tow tender)	tons & number
8601 57	Powered by steam turbine	tons & number
8601 59	Fireless locomotives with high-pressure tanks	tons & number
	Internal combustion and diesel, excluding mine railway locomotives:	
8601 61	With mechanical power transmission	tons & number
	With hydraulic power transmission and a nominal engine performance:	
8601 62	Of 80 h.p. or less	tons & number
8601 63	Of more than 80 h.p. up to and including 250 h.p.	tons & number
8601 64	Of more than 250 h.p. up to and including 600 h.p.	tons & number
8601 65	Of more than 600 h.p.	tons & number
	With electric power transmission (diesel electric drive) and a nominal engine performance:	
8601 67	Of 600 h.p. or less	tons & number
8601 68	Of more than 600 h.p.	tons & number
8601 70	With electric drive (power supply by overhead-wire, third rail or accumulator)	tons & number
8601 80	With other drive (e.g. compressed-air-locomotives)	tons & number
	Mine railway locomotives:	
8601 91	With compressed-air-drive	tons & number
	With electric drive and power supply by:	
8601 95	Overhead-wire or third rail	tons & number
8601 96	Accumulator	tons & number
8601 98	Powered by internal combustion engine	tons & number
8601 99	With other drive	tons & number

Locomotive tenders for track of a gauge:

8602 10	Of 100 cm. or more	tons & number
8602 90	Of less than 100 cm.	tons & number

Motorised rail and tramway coaches:

	For track of a gauge of 100 cm. or more:	
8603 11	Powered by internal combustion or diesel engine, whether or not combined with electric motors (diesel-electric drive)	tons & number
8603 15	With electric drive (power supplied by accumulators, overhead wire or third rail)	tons & number
8603 19	Other motorised rail and tramway coaches (e.g. rail-bound buses)	tons & number

XVII. Vehicles and transport equipment

For tracks of a gauge of less than 100 cm.:

8603 91	Powered by internal combustion or diesel engine, whether or not combined with electric motors (diesel-electric drive)	tons & number
8603 95	With electric drive (power supplied by accumulators, overhead wire or third rail)	tons & number
8603 99	Other motorised rail and tramway coaches (e.g. rail-bound buses)	tons & number

Track inspection trolleys, whether or not self-propelled:

8604 10	Self-propelled	kg.& number
8604 50	Not self-propelled	kg.& number

Passenger coaches, luggage vans, travelling post-office coaches, hospital coaches, prison coaches, testing coaches and other special coaches for tracks of a gauge:

Of 100 cm. or more:

8605 11	Trailers for motorised rail and tramway coaches of different kinds and for rail-bound buses	tons & number
	Passenger coaches:	
8605 12	Pullman- and saloon coaches	tons & number
8605 13	Other	tons & number
8605 15	Sleeping and dining cars	tons & number
8605 17	Travelling post office coaches and luggage vans	tons & number
8605 19	Hospital coaches, testing coaches, prison coaches and other special coaches	tons & number

Of less than 100 cm.:

8605 91	Trailers for motorised rail and tramway coaches of different kinds and for rail-bound buses	tons & number
8605 93	Passenger cars	tons & number
8605 99	Other cars	tons & number

Workshop wagons, breakdown cranes and other service wagons and trucks, for tracks of a gauge:

8606 10	Of 100 cm. or more	tons & number
8606 90	Of less than 100 cm.	tons & number

Goods vans, goods wagons and trucks, n.e.s., for tracks of a gauge:

Of 100 cm. or more:

Goods vans; goods wagons and trucks:

8607 11	Open	tons & number
8607 12	Covered	tons & number
8607 16	Tank- and reservoir wagons	tons & number
8607 18	Refrigerator cars	tons & number
8607 19	Other	tons & number

Of less than 100 cm.:

Goods vans; goods wagons and trucks:

8607 91	Open	tons & number
8607 92	Covered	tons & number

XVII. Vehicles and transport equipment

8607 93	Narrow gauge wagons (e.g. rocker dump cars)	tons & number
8607 94	Mining cars and trucks	tons & number
8607 96	Tank and reservoir wagons	tons & number
8607 98	Refrigerator cars	tons & number
8607 99	Other	tons & number

8608 00	Goods vans and trailers constructed for use both on rail and road	tons & number
---------	---	---------------

Containers:

8609 10	Containers for the transport of fluids	kg.& number
8609 90	Other containers	kg.& number

Note.

This chapter also includes containers when suitable for transport other than by rail.

Parts of railway and tramway rolling stock, n.e.s.:

For locomotives, excluding brake equipment (8610 51 and 8610 59), complete driving engines and parts thereof for locomotives with engine drive (Chapter 84 and 85):

8610 12	Wheel sets and parts thereof	kg.
	Other:	
8610 17	Of forged or pressed steel	kg.
8610 18	Other	kg.

For other railway and tramway vehicles:

For tracks of a gauge of 100 cm. or more:

8610 21	Bogies	kg.& number
8610 23	Chassis complete with axles and wheels	kg.& number
8610 25	Frames	kg.& number

For tracks of a gauge of less than 100 cm.:

8610 31	Bogies	kg.& number
8610 33	Chassis complete with axles and wheels	kg.& number
8610 35	Frames	kg.& number

Axleboxes (grease- and oilboxes):

	Of malleable cast iron:	
8610 41	With roller bearings	kg.
8610 44	Other axleboxes of malleable cast iron	kg.

Other:

8610 46	With roller bearings	kg.
8610 49	Other axleboxes	kg.

Brake equipment of all kind:

8610 51	Compressed air and vacuum brakes	kg.
8610 59	Other brake equipment	kg.

Axles, wheels, sets of wheels, wheel tyres, wheel rims, wheel bodies and other parts of wheels, excluding those for locomotives (8610 12):

	For narrow gauge railway cars, mining cars and -trucks:	
8610 62	Of malleable cast iron	kg.
8610 63	Other	kg.
8610 69	For other cars	kg.

XVII. Vehicles and transport equipment

8610 81	Bodies for coaches, trucks, wagons etc.	kg.& number
	Buffers, draw hooks, couplings and the like (so-called wagon fittings):	
8610 91	Of malleable cast iron	kg.
8610 94	Other	kg.
8610 99	Other parts and spare parts (e.g. corridor connections)	kg.

Railway and tramway track fixtures and fittings; traffic
signalling equipment of all kinds, not electrically operated:

	Assembled track:	
8611 10	Narrow gauge railway track for building sites, quarries etc., whether or not dismantled	kg.
8611 20	Other assembled track, including rail-plants	kg.
8611 30	Turntables and turnover plates for narrow gauge track for building sites, quarries etc.	kg.
8611 40	Turntables and moving platforms for locomotives and wagons	tons
8611 50	Buffer stops, track brakes, loading gauges and the like	kg.
8611 60	Switch equipment, excluding signalling lamps and mechanical signal boxes	kg.
8611 90	Signalling equipment, whether or not mechanical (with fixed or turnable disks, or with movable wings; beacons and the like), with or without lighting equipment of all kinds; level-crossing control gear, signal and point remote controls	kg.

XVII. Vehicles and transport equipment

Chapter 87

Motor vehicles, tractors, cycles and
other land vehicles.

Tractors:

Internal combustion or diesel:

Agricultural tractors:

8701 10	Caterpillar tractors	kg.& number
	Three- and four-wheel tractors with a nominal performance:	
8701 31	Of 17 h.p. or less	kg.& number
8701 35	Of more than 17 h.p. up to and including 34 h.p.	kg.& number
8701 39	Of more than 34 h.p.	kg.& number

Road motor tractors:

8701 51	Of 30 h.p. or less	kg.& number
8701 55	Of more than 30 h.p. up to and including 60 h.p.	kg.& number
8701 59	Of more than 60 h.p.	kg.& number

8701 70	Other (e.g. caterpillar tractors for the building trade, not fitted with grading equipment or the like)	kg.& number
---------	---	-------------

With other motors, including those with several motors of different kinds:

8701 91	With electric motors (electro trucks, electric tractors)	kg.& number
8701 99	Other	kg.& number

Note.

Tractors are deemed to be motor vehicles not constructed for the transport of passengers or goods, but for drawing and pulling purposes.

Motor vehicles fitted with engines of all kinds:

Lorries, including goods vans:

Electric lorries and electric goods vans, with pay load:

8702 11	Up to and including 1 ton	kg.& number
8702 15	Exceeding 1 ton up to and including 4 tons	kg.& number
8702 19	Exceeding 4 tons	kg.& number
8702 20	Three-wheeled goods vans	kg.& number

Other lorries, including goods vans with a pay load:

8702 31	Up to and including 2 tons	kg.& number
8702 35	Exceeding 2 tons up to and including 5 tons	kg.& number
8702 39	Exceeding 5 tons	kg.& number

Passenger and dual-purpose vehicles:

8702 50	Omnibuses	kg.& number
8702 60	Trolley-buses	kg.& number
8702 70	Ambulances	kg.& number
8702 80	Shooting brakes	kg.& number

XVII. Vehicles and transport equipment

Other passenger vehicles, with a cylinder capacity:

8702 91	Up to and including 1 litre	kg.& number
8702 93	Exceeding 1 litre up to and including 1,5 litres	kg.& number
8702 95	Exceeding 1,5 litres up to and including 2 litres	kg.& number
8702 97	Exceeding 2 litres up to and including 3 litres	kg.& number
8702 99	Exceeding 3 litres	kg.& number

Note.

Omnibuses are motor vehicles with a seating capacity of not less than ten persons.

Motor vehicles for special purposes, with or without lifting, handling, loading, unloading, extracting or excavating equipment:

Loading trucks:

8703 11	With electrical drive (e.g. electric platform trucks with driver's cab or with open or closed driver's seat)	kg.& number
	With other drive:	
8703 15	With mounted rotary crane	kg.& number
8703 19	Other loading trucks	kg.& number
8703 30	Road motor fire-engines of all kinds (e.g. pumping-, ladder- and hosepiping vehicles)	kg.& number
8703 40	Public service vehicles (e.g. scavengers, spraying-, garbage-, sewage vehicles)	kg.& number
	Other motor vehicles for special purposes:	
8703 50	Excavators	kg.& number
8703 60	Motor scrapers	kg.& number
	Other:	
8703 91	In which the working parts or equipment are operated by a separate engine from that used for propelling the vehicle	kg.& number
8703 95	In which the working parts or equipment are operated by the same engine as that used for propelling the vehicle	kg.& number

Motor vehicle chassis fitted with engines:

8704 10	For lorries	kg.& number
8704 51	For omnibuses and trolley-buses	kg.& number
8704 59	For other passenger vehicles	kg.& number

Note.

The presence or absence of cabs, tyres, fuel equipment, electrical equipment, dash-boards, and steering-wheels does not affect the classification of motor vehicle chassis of a kind falling under these items.

Motor vehicle bodies and cabs:

8705 10	Tank vehicle bodies and mountings	kg.& number
8705 90	Bodies, cabs and other mounted structures	kg.& number

Note.

Cabs are to be treated in the same manner as motor vehicle bodies.

XVII. Vehicles and transport equipment

Parts and assessories of motor vehicles or tractors, worked or unworked, n.e.s.:

8706 10	Parts and accessories of bodies, cabs and mounted structures, excluding fittings (Chapter 83)	kg.
	Chassis parts, including accessories :	
8706 50	Of agricultural tractors and road tractors	kg.
	Of motor vehicles:	
8706 91	Axles	kg.
8706 93	Bumpers	kg.
8706 95	Fuel tanks	kg.
8706 97	Non-skid chains	kg.
8706 99	Other chassis parts, including accessories	kg.
8707 00	Armoured fighting vehicles and armoured motor vehicles, whether or not fitted with weapons; parts thereof, n.e.s.:	kg.

Motorcycles and pedal cycles with auxiliary motor, with or without side-cars; side-cars:

	Motorcycles with a cylinder capacity:	
8708 11	Up to and including 100 ccm.	kg.& number
8708 13	Exceeding 100 ccm. up to and including 125 ccm.	kg.& number
8708 15	Exceeding 125 ccm. up to and including 250 ccm.	kg.& number
8708 17	Exceeding 250 ccm. up to and including 350 ccm.	kg.& number
8708 19	Exceeding 350 ccm.	kg.& number
	Motor scooters, with a cylinder capacity:	
8708 31	Up to and including 100ccm.	kg.& number
8708 39	Exceeding 100 ccm.	kg.& number
8708 50	Motorized cycles	kg.& number
	Pedal cycles with auxiliary motor, with a cylinder capacity:	
8708 71	Of 50 ccm. or less	kg.& number
8708 79	Exceeding 50 ccm.	kg.& number
8708 90	Side-cars	kg.& number
8709 00	Cycles not motorized	kg.& number

Note:

Children's cycles fall within this item if they are constructed in the form of normal cycles and are fitted with ball bearings.

Invalid chairs and similar carriages fitted with mechanical means of propulsion specially constructed for use by the disabled or by invalids:

8710 10	Motor-driven	kg.& number
8710 90	Other	kg.& number

Parts and accessories of motorcycles or other cycles, n.e.s.:

8711 10	Of motorcycles, motorscooters and motorized cycles	kg.
---------	--	-----

XVII. Vehicles and transport equipment

Of cycles (with or without auxiliary motor):

8711 51	Frames	kg.
8711 53	Free wheel hubs with back-pedal brake	kg.
8711 55	Pedals	kg.
8711 57	Saddles	kg.
8711 58	Spokes and nipples	kg.
8711 59	Other parts and accessories	kg.

Vehicles not fitted with mechanical means of propulsion, excluding trailers; parts thereof, n.e.s.:

Goods vehicles:

8712 11	Agricultural carts with rubber tyres	kg.& number
8712 19	Other goods vehicles	kg.& number
8712 20	Vehicles for special purposes (e.g. fire fighting trucks and public service vehicles)	kg.& number
8712 30	Hand trucks (e.g. tip carts, wheel barrows, bottle draining trucks, gas cylinder carts, pushcarts, water barrel carts, warehouse carts and the like)	kg.& number
	Baby carriages (box prams and wicker prams, including sports prams):	
8712 51	Non-collapsible	kg.& number
8712 59	Other baby carriages	kg.& number
8712 60	Invalid carriages	kg.& number
8712 80	Other vehicles not fitted with mechanical means of propulsion (e.g. coaches, dogcarts)	kg.& number
	Parts, n.e.s., including wheels fitted with tyres and wheelwrights' wares:	
8712 91	Axles	kg.
8712 99	Other parts	kg.

Trailers for vehicles with or without mechanical propulsion, for motorcycles or cycles:

Goods trailers of a dead weight:

Of less than 1000 kg.

8713 11	For motorcycles and cycles	kg.& number
8713 19	Other	kg.& number
8713 20	Of 1000 kg. or more	kg.& number
8713 50	Passenger carrying trailers, including caravans	kg.& number
8713 70	Other (e.g. with mounted cranes or turrets)	kg.& number
	Parts:	
8713 91	Bodies, cabs and mounted structures	kg.
8713 99	Other parts	kg.

Note.

Axles, hubs and wheel brakes of the articles classified within items 8713 11 to 8713 70 are falling under items 8706 50 to 8706 99, 8711 10 to 8711 59 and 8712 91 to 8712 99 according to their nature.

Only for exports

8780 13	Assortments of motor vehicle parts and accessories	kg.
8780 14		

XVII. Vehicles and transport equipment

Chapter 88

Aircraft

Airships and balloons; parts thereof:

8801 10	Dirigible airships	kg.& number
	Balloons:	
8801 51	For metereological purposes	kg.& number
8801 59	For other purposes	kg.& number
8801 90	Parts of airships and balloons	kg.

Flying machines (e.g. aeroplanes, seaplanes, flying boats, kites, gliders, autogiros, helicopters and ornithopters):

8802 10	Motor-driven, with or without propelling engines	kg.& number
	Other flying machines:	
8802 91	Gliders	kg.& number
8802 99	Other	kg.& number

Parts of flying machines (assembled parts and single parts):

8803 10	Complete wings	kg.
8803 30	Complete fuselages	kg.
	Propellors:	
8803 51	Of wood	kg.
8803 59	Of other materials	kg.
8803 70	Built-in tanks	kg.
8803 90	Other parts of flying machines (e.g. parts of wings, empennages and parts thereof; parts of fuselages, power gondolas, landing gear, wheels, floats, tanks and radiators)	kg.
8804 00	Parachutes and accessories thereto	kg.

Catapults and other similar aircraft launching gear, ground-flying trainers:

8805 10	Catapults and similar aircraft launching gear	kg.
8805 50	Groundflying trainers	kg.

8806 00	Military aircraft	kg.& number
---------	-------------------	-------------

Note.

Military aircraft are only such aircraft which are specially constructed and armed for fighting. Transport aircraft that may be employed for commercial purposes are not deemed to be military aircraft.

Chapter 89

Ships and boats for sea and inland navigation

General note.

Disassembled boats are treated in the same manner as assembled boats, in particular in the case of sectional barges if imported or exported in parts or in pieces.

Ships and boats, n.e.s.:

Sea and coastal vessels of a gross tonnage exceeding 250 gross register tons:

Mechanically propelled:

8901 11	Passenger steamers	gross ton, net ton & number
8901 13	Cargo ships, including those with passenger accommodation	gross ton, net ton & number
8901 15	Tankers	gross ton, net ton & number
8901 17	Fishing boats, including whaling boats	gross ton, net ton & number
8901 19	Other sea and coastal vessels mechanically propelled (e.g. salvage vessels, ice-breakers, pilot-boats)	number & h.p.

Not mechanically propelled:

8901 21	Sailing vessels with or without auxiliary engines	gross ton, net ton & number
8901 25	Sealighters	gross ton, net ton & number
8901 29	Other sea and coastal vessels, not mechanically propelled	gross ton & number
8901 30	Sea and coastal vessels of a gross tonnage, not exceeding 250 gross register tons	gross ton & number

Ships and boats for inland navigation:

Mechanically propelled:

8901 41	Passenger steamers	construction weight & number
8901 43	Cargo ships, including those with passenger accommodation	cap. ton & number
8901 45	Tankers	cap. ton & number
8901 49	Other ships and boats for inland navigation mechanically propelled	number & h.p.

Not mechanically propelled:

8901 51	Barges	cap. ton & number
8901 53	Lighters	cap. ton & number
8901 55	Tank barges	cap. ton & number
8901 59	Other ships and boats for inland navigation not mechanically propelled	construction weight & number

Sport boats:

8901 71	Motor sport boats	number & h.p.
8901 73	Sailing yachts and sailing boats	construction weight & number
8901 75	Skiffs and sculling boats	number
8901 79	Other sports boats (e.g. canoes, paddling boats and faltboats)	number
8901 80	Pneumatic boats of all kinds	number
8901 90	Other boats (e.g. dinghies)	number

XVII. Vehicles and transport equipment

Tugs:

Ocean-going tugs:		
8902 11	Of a gross tonnage exceeding 250 gross register tons	number & h.p.
8902 15	Of a gross tonnage not exceeding 250 gross register tons	number & h.p.
Other tugs:		
8902 91	Of a gross tonnage exceeding 250 gross register tons	number & h.p.
8902 95	Of a gross tonnage not exceeding 250 gross register tons	number & h.p.

Ships and boats for special purposes (e.g. ferry-boats, dredgers, fire floats, floating grain elevators, floating cranes and railway ferries):

Dredgers, of a construction weight:		
8903 11	Not exceeding 100 t.	t. & number
8903 15	Exceeding 100 t.	t. & number
Floating cranes, of a construction weight:		
8903 31	Not exceeding 100 t.	t. & number
8903 35	Exceeding 100 t.	t. & number
Ferry-boats, including railway ferries:		
8903 51	Of a gross tonnage exceeding 250 gross register tons	t. & number
8903 55	Of a gross tonnage not exceeding 250 gross register tons	t. & number
8903 70	Floating docks, floating ship lifts and lifting pontoons	t. & number
8903 90	Other ships and boats for special purposes	t. & number

8904 00	Ships and boats for breaking up	t. & number
---------	---------------------------------	-------------

8905 00	Floating structures, e.g. tanks, caissons, mooring buoys, other buoys and the like; beacons	kg. & number
---------	---	--------------

Propulsion appliances and equipment for vessels:

Ship propellers:		
8906 11	Of cast iron	kg. & number
8906 13	Of cast steel	kg. & number
8906 15	Of bronze	kg. & number
8906 19	Of other materials	kg. & number
8906 30	Paddle-wheels	kg. & number
8906 90	Other propulsion appliances and equipment for vessels	kg. & number

8907 00	Warships, including submarines	t. displacement of water
---------	--------------------------------	--------------------------

Note.

Warships are only such ships which are specially constructed and armed for fighting, as well as submarines. Transport ships of a kind suitable for commercial traffic are not deemed to be warships.

Section XVIII

Optical instruments and apparatus; photographic and cinematographic
apparatus; measuring, calibrating and precision instruments,
material testing machines; medical and surgical instruments
and apparatus; clocks and watches; musical instru-
ments, sound recorders and reproducers

Chapter 90

Optical instruments and apparatus; photographic and cinematographic
apparatus; measuring, calibrating and precision instruments,
material testing machines; medical and surgical instruments
and apparatus

General notes.

1. This Chapter does not include:
 - a) Optical glass, not optically worked (Chapter 70);
 - b) Screws, springs, hinges, chains and other accessories of general use of base metal (Section XV);
 - c) Pumps of the type used for the delivery of petrol or oil and lubricates at garages and filling stations with liquid measuring devices; leather, hides and skins measuring machines and apparatus; weight-operated counting and checking machinery; weights of all kinds for weighing (Chapter 84);
 - d) Electrical headlights and sidelights and similar electrical lighting equipment for vehicles; electrical signalling equipment; radio navigational aid or radiogoniometric equipment and the like; supersonic and electro-magnetic echo sounding apparatus and detectors (Chapter 85);
 - e) Optical elements suitable for mounting on weapons and imported or exported together with such weapons (Chapter 93);
 - f) Toys (Chapter 97);
 - g) Capacity measures or hygienic or pharmaceutical instruments such as canulae, sounds and the like, which are treated according to their nature.
2. Optical elements for apparatus of a kind falling within this Chapter and imported or exported separately are in every case treated according to their nature.
3. Instruments, machines and apparatus complete except for minor parts are not treated as parts but as complete instruments, machines and apparatus. Unassembled instruments, machines and apparatus are treated in the same manner as the corresponding assembled articles even when minor parts are missing.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

4. Except where otherwise provided parts of instruments, machines and apparatus not specially mentioned and imported or exported separately, but recognisable as parts of particular instruments, machines and apparatus are to be treated in the same manner as such instruments, machines or apparatus. If not so recognisable, these parts are treated as parts of machinery and apparatus, n.e.s., of a kind falling within items 8477 11 to 8477 99 or 8535 00 or as clock and watch parts and accessories of a kind falling within items 9111 91 to 9111 99 according to their nature.
-

Glass, quartz, artificial plastic and other materials, optically worked, unmounted:

9001 10	Spectacle glasses of all kinds	kg.& no of 100 units
9001 50	Contact lenses	kg.& number
9001 80	Mirrors, prisms, lenses, whether or not cemented together (lens systems) and the like	kg.

Mounted elements of glass, quartz, artificial plastic or other materials, optically worked, of a kind suitable for fitting to instruments and apparatus; mounted optical mirrors:

9002 10	Optical mirrors, mounted	kg.& number
	Objectives, eyepieces, prisms, lenses and the like, mounted:	
9002 81	For microscopes	kg.
9002 82	For cameras, projectors, enlargers and cinematographic apparatus	kg.
9002 89	For other instruments and apparatus	kg.

Spectacle, goggle, pince-nez, lorgnette and similar frames and mountings, parts thereof:

	Spectacle, goggle and pince-nez frames and mountings:	
9003 11	Of precious metal or of rolled precious metal	kg.& number
9003 15	Of other metal, whether or not coated with non-metallic materials	kg.& number
9003 19	Of other materials	kg.& number
9003 80	Other frames and mountings and similar articles	kg.
9003 90	Parts and spare parts	kg.

Spectacles, goggles, pince-nez, lorgnettes, and similar articles, mounted:

	Corrective, with frames and mountings:	
9004 11	Of precious metal or rolled precious metal	kg.& number
9004 15	Of other metals, whether or not coated with non-metallic materials	kg.& number
9004 19	Of other materials	kg.& number

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Not corrective:

9004 30	Sun glasses	kg.& number
9004 80	Other spectacles and goggles (e.g. quarrymen's goggles, welding goggles, polarising spectacles) and similar articles	kg.& number

Monoculars, binoculars and refracting telescopes, with prisms or lenses, n.e.s.:

9005 10	Monoculars and binoculars without prisms for manual use	kg.& number
9005 20	Prismatic binoculars for manual use	kg.& number
9005 30	Telescopes with stands for terrestrial and nautical purposes	kg.& number
9005 40	Telescopic sights	kg.& number
9005 80	Other monoculars, binoculars and refracting telescopes	kg.& number
9005 90	Parts and spare parts, excluding optical elements (9002 89)	kg.

Astronomical instruments, e.g. reflecting telescopes, meridian transit instruments and equatorial telescopes and the like, with or without mountings:

9006 10	Astronomical instruments	kg.& number
9006 90	Parts and spare parts, excluding optical elements (9002 89)	kg.

Photographic and cinematographic apparatus; projectors and enlarging apparatus:

Photographic apparatus, whether or not fitted with optical elements:

Reproduction apparatus of a negative size:

9007 11	Exceeding 30 x 40 cm.	kg.& number
9007 12	Of 30 x 40 cm. or less	kg.& number
9007 15	Special cameras for technical or scientific purposes	kg.& number
9007 19	Other photographic apparatus	kg.& number

Cinematographic apparatus, whether or not fitted with their optical elements:

Cameras, excluding sound recorders, for films of a width:

9007 21	Exceeding 16 mm.	kg.& number
9007 22	Of 16 mm. or less	kg.& number
9007 25	Sound film recorders	kg.& number

Combined cinematographic and sound recording cameras for films of a width:

9007 28	Exceeding 16 mm.	kg.& number
9007 29	Of 16 mm. or less	kg.& number

Projectors, including sound heads, for films of a width:

9007 31	Exceeding 16 mm.	kg.& number
9007 35	Of 16 mm. or less	kg.& number

Aerial photographic and cinematographic cameras, including aerial photo-surveying cameras and projectors, whether or not fitted with their optical elements:

9007 41	Photogrammetric cameras, including aerial cameras	kg.& number
9007 45	Photogrammetric surveying and evaluating apparatus	kg.& number

XVIII. Optic.& medic.instr.etc.; photogr.app.; watches & clocks; music.instr.etc.

9007 50	Image projectors, including epidiascopes, whether or not fitted with their optical elements	kg.& number
9007 60	Enlarging- and reducing apparatus, n.e.s., whether or not fitted with their optical elements	kg.& number
9007 70	Microphotographic and microcinematographic apparatus, including microprojecting apparatus with or without microscopes, whether or not fitted with their optical elements	kg.& number
	Parts and spare parts, excluding optical elements (9002 82):	
9007 91	Photographic shutters and diaphragms	kg.
9007 93	Dark slides and changing boxes, including slides focusing screens	kg.
9007 95	Spools for photographic purposes	kg.
9007 99	Other parts and spare parts	kg.

Laboratory apparatus and accessories for photographic and cinematographic purposes:

9008 10	Photographic laboratory apparatus (e.g. copying frames, printing apparatus, driers and glazers)	kg.
9008 20	Cinematographic laboratory apparatus (e.g. for printing by contact or by projection, for developing, for producing cartoon-films, for synchronising or perforating films)	kg.
9008 30	Spools for winding cinematographic films	kg.
9008 40	Screens for cinematographic projection	kg.
9008 80	Electrical exposure meters	kg.& number
9008 90	Other accessories for photographic and cinematographic purposes (e.g. optical exposure meters, filmadaptors, short-range focus apparatus, ball and socket joints, wire-release, flashlight-release, range finders), including electron flashlight apparatus	kg.

Spotlights, floodlights, searchlights and other light beam projectors, n.e.s.:

9009 10	With optically worked glass or other materials	kg.& number
	Not optically worked:	
9009 81	Projectors for photographic and cinematographic studios	kg.& number
9009 89	Other projectors	kg.& number
9009 90	Parts and spare parts, excluding optical elements	kg.

Microscopes, whether or not fitted with their optical elements, including electron microscopes:

	Complete microscopes:	
9010 10	Electron microscopes	kg.& number
9010 50	Other microscopes	kg.& number
	Parts and spare parts, excluding optical elements (9002 81):	
9010 91	For electron microscopes	kg.
9010 95	For other microscopes	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Optical apparatus and instruments, n.e.s.:

9011 10	Magnifying glasses and thread counters	kg.
9011 20	Stereoscopes, kaleidoscopes, cryptometer and the like	kg.& number
9011 30	Optical signalling apparatus (e.g. heliographes, blinker-signal equipment)	kg.& number
9011 40	Optical lighting apparatus, excluding light beam projectors (9009 10 to 9009 89)	kg.& number
9011 80	Other optical apparatus and instruments	kg.& number
9011 90	Parts and spare parts, excluding optical elements	kg.

Geodetical and topographical instruments and appliances, surveying, levelling, geophysical, nautical and aeronautical, hydrographical, meteorological and hydrological instruments and appliances, n.e.s.:

Geodetical, topographical, surveying and levelling instruments and appliances:

9012 11	Range-finders, excluding photographic range-finders (9008 90)	kg.& number
9012 15	Surveying-rods, measuring poles, levelling poles, plane tables and similar appliances for surveying	kg.
9012 17	Compasses (e.g. marching compasses), excluding nautical and aeronautical compasses (9012 31)	kg.
9012 19	Other geodetical and topographical instruments and appliances, including surveying and levelling instruments and appliances (e.g. theodolites, goniometers, diopter rules, surveyor's squares, tacheometers, telescopic graphometers, altimeters and tracing appliances)	kg.
9012 20	Geophysical instruments and appliances (e.g. seismographs, declinators, declination-variometers, dip needles	

Nautical, aeronautical, oceanographical and hydrological instruments and appliances:

9012 31	Navigational and aeronautical compasses (e.g. gyro compasses, auxiliary compasses)	kg.& number
	Other instruments and appliances:	
9012 40	Nautical instruments and appliances	kg.& number
9012 50	Aeronautical instruments and appliances	kg.& number
9012 60	Oceanographical and hydrological instruments and appliances	kg.& number
9012 80	Meteorological instruments and appliances (e.g. rain gauges, non-electrical anemometers)	kg.& number
9012 90	Parts and spare parts, excluding optical elements	kg.

Precision balances of a sensitivity of 5 centigrammes or better with or without their weights:

9013 10	Analytical balances	kg.& number
9013 80	Other precision balances (e.g. torsion balances, chemists' balances, precision platform scales	kg.& number
9013 90	Parts and spare parts	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Calculating instruments, excluding calculating machines;
drawing instruments, mathematical instruments:

Calculating instruments:

9014 11	Slide rules, calculating disks and the like	kg.
9014 19	Other calculating instruments (e.g. planimeters and other mathematical instruments)	kg.& number
9014 50	Drawing machines	kg.& number
9014 60	Drawing instruments (e.g. drawing squares, goniometers, dividers, pantographs)	kg.
9014 70	Sets of mathematical and drawing instruments	kg.& number
	Parts and spare parts:	
9014 91	For mathematical and drawing instruments	kg.
9014 99	For calculating instruments, drawing machines, and drawing instruments	kg.

Measuring, checking and calibrating instruments, n.e.s.:

9015 01	Balancing machines and -apparatus and efficiency testing machines	kg.
9015 10	Calibrating instruments and appliances	kg.
	Optical and precision instruments:	
9015 21	With optical appliances	kg.
9015 25	Without optical appliances (e.g. dial flow meters, gauges, micrometers)	kg.
	Other measuring, checking and calibrating instruments:	
9015 81	Tape measures, spring-tape measures, land chains, plummets and the like	kg.
9015 85	Squares, dividers, rulers and similar simple precision measuring tools for workmen	kg.
9015 89	Other measuring, checking and calibrating instruments and machines	kg.
	Parts and spare parts, excluding optical elements:	
9015 92	For optical and precision instruments	kg.
9015 99	For other measuring, checking and calibrating instruments or machines	kg.

Surgical and other medical and veterinary instruments and appliances, n.e.s.:

9016 11	Blood pressure equipment	kg.& number
9016 15	Ophthalmological appliances and spectacle trialcases and frames	kg.
9016 21	Endoscopes, excluding specula (9016 33)	kg.& number
9016 25	Appliances for anthropometrical examinations, sensibility examinations and other diagnostic appliances	kg.
9016 33	Medical and veterinary instruments, excluding rubber articles (Chapter 40)	kg.
	Syringes and blood transfusion equipment:	
9016 36	Syringes wholly of glass	kg.& number
9016 39	Other, including blood transfusion equipment	kg.
9016 41	Suture needles	kg.
9016 42	Canulae for medicinal syringes	kg.
9016 45	Inhalation apparatus	kg.
9016 56	Surgical, medical, veterinary or medicinal instruments and appliances	kg.
9016 57	Dental and dental-surgical instruments and appliances, excluding drilling machines, drilling instruments and drilling tools	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

9016 70	Drilling instruments and similar tools for dental and surgical purposes	kg.
	Drilling machines for dental and surgical purposes:	
	With electric drive:	
9016 81	For dental purposes	kg.
9016 84	For surgical purposes	kg.
	With other drive:	
9016 86	For dental purposes	kg.
9016 89	For surgical purposes	kg.
9016 90	Parts and spare parts	kg.

Mecano-therapeutic, psychological attitude-testing, oxygeno-therapeutic, ozono-therapeutic, artificial respiration and similar apparatus, with or without motors; gasmasks and similar respirators:

9017 10	Zander or pendulum apparatus and other apparatus for mecano-therapeutic examinations and psychological attitude-testing	kg.
9017 30	Gasmasks and similar respirators	kg.
9017 80	Other (e.g. oxygeno-therapeutic and ozono-therapeutic apparatus)	kg.
9017 90	Parts and spare parts	kg.

Orthopaedic apparatus; appliances for the treatment of bone-fractures (e.g. splints and other appliances):

9018 30	Orthopaedic supports	kg.
9018 40	Splints and other appliances for the treatment of bone-fractures	kg.
9018 80	Other orthopaedic articles, excluding artificial limbs (9019 60)	kg.

Artificial limbs and other artificial parts of the body:

Artificial teeth:

Of ceramic materials:

Containing precious metal:

9019 12	Long china crowns	kg.& number
9019 15	Other (e.g. gold shell pin teeth)	kg.& number
9019 19	Other teeth of ceramic materials	kg.& number

Of other materials:

9019 21	Containing precious metal	kg.& number
9019 29	Other	kg.& number
9019 50	Artificial human eyes	kg.
9019 60	Orthopaedic fittings (e.g. artificial limbs)	kg.
9019 80	Other artificial parts of the body (e.g. crowns, dentures)	kg.
9019 90	Parts and spare parts	kg.

Demonstration and instructional instruments, apparatus and models, obviously unsuitable for industrial use:

9020 10	Physical, chemical and technological apparatus and articles for instructional purposes	kg
---------	--	----

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

9020 50	Biological models, excluding human and animal skeletons . (Chapter 99)	kg.
9020 80	Other demonstration and instructional instruments, apparatus and models of all kinds	kg.

Machines and appliances for testing industrial materials,
textiles, paper or other materials:

Material testing machines and apparatus, including torsion-
testing machines:

9021 82	For metals	kg.
9021 89	For other materials	kg.
9021 90	Parts and spare parts	kg.

Areometers, alcoholometers and other densitometers:

9022 10	Of glass	kg.& number
9022 80	Of other materials	kg.

Physics and chemistry instruments and apparatus, n.e.s.
(e.g. saccharometers, polariscopes, refractometers, spectro-
meters and viscosimeters):

9023 10	With optically worked elements	kg.& number
9023 80	Without optically worked elements	kg.& number
9023 90	Parts and spare parts, excluding optical elements	kg.

Gas, liquid and electricity supply meters:

Gas supply meters:

9024 11	Plant gas supply meters (rotary piston gas supply meters)	kg.& number
9024 15	Household gas supply meters	kg.& number
9024 19	Other gas supply meters	kg.& number

Liquid supply meters, including delivery measuring
apparatus, but excluding pumps of the type used for
the delivery of petrol or oil and lubricants with
liquid measuring mechanisms (8412 11):

Water supply meters:

9024 31	Household water supply meters	kg.& number
9024 39	Other water supply meters	kg.& number
9024 40	Other liquid supply meters	kg.& number

Electricity supply meters:

9024 51	Standard meters (one- or multiple rate meters)	kg.& number
9024 53	Special meters (e.g. gauging meters, controlling meters, maximum meters, with or without registering equipment)	kg.& number
9024 55	Switch clocks (rate meters)	kg.& number

Parts and spare parts:

Cases:

9024 92	For electricity supply meters	kg.
9024 94	For gas and liquid supply meters	kg.
	Other parts and spare parts:	
9024 96	For electricity supply meters	kg.
9024 98	For gas and liquid supply meters	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Revolution counters, production counters, taximeters, mileometers, pedometers and other meters, n.e.s.; tachometers and other speedometers:

9025 11	For motor vehicles or motorcycles	kg.& number
9025 19	For other purposes	kg.& number
9025 90	Parts and spare parts	kg.

Thermometers, barometers and manometers, whether or not recording:

Thermometers:		
9026 11	Clinical thermometers	kg.& number
9026 15	Recording thermometers	kg.
Other thermometers:		
9026 21	Of glass	kg.& number
9026 29	Of other materials	kg.
9026 50	Barometers	kg.
Manometers:		
9026 60	Tirefilling and -checking apparatus	kg.
Other manometers:		
9026 61	Of a case-diameter up to 63 mm.	kg.
9026 69	Other	kg.
9026 90	Parts and spare parts	kg.

Other non-electrical apparatus for measuring, indicating, regulating or analysing gases, liquids or temperatures:

9027 01	Complete non-electrical plants for measuring, indicating, regulating or analysing gases, liquids or temperatures	kg.
Pressure reducing valves and the like, with or without servo-motors:		
9027 12	For autogenous welding apparatus	kg.
9027 19	For other purposes	kg.
Thermostats, with or without accessories, weighing:		
9027 21	Less than 3 kg.	kg.
9027 23	3 kg. or more	kg.
9027 30	Liquid level gauges	kg.
9027 40	Oven draught regulators	kg.
9027 50	Gas and smoke analysers	kg.
9027 60	Calorimeters	kg.
9027 80	Other non-electrical measuring, controlling, regulating or analysing apparatus (e.g. pyrometers, flowmeters, pneumatic and hydraulic regulators)	kg.
9027 90	Parts and spare parts	kg.

Electrical measuring instruments, n.e.s.:

For measuring electric quantities (e.g. voltmeters, ammeters, frequency meters and galvanometers):

9028 11	Switchboard instruments	kg.
9028 12	Portable measuring instruments and measuring bridges, excluding the articles classified within items 9028 13 to 9028 15	kg.
9028 13	Precision measuring instruments	kg.
9028 14	Measuring apparatus for transmissions by wire	kg.

XVIII. Optic.& medic.instr.etc.; photogr.app.; watches & clocks; music.instr.etc.

9028 15	Highfrequency and electronic measuring apparatus	kg.
9028 19	Other electrical measuring apparatus for measuring electric quantities	kg.
	For measuring non-electrical quantities the measuring of which is based on an electrical quality:	
9028 51	Heat measuring apparatus	kg.
9028 52	Pressure and volume measuring apparatus	kg.
9028 53	Wind pressure gauges	kg.
9028 59	Other electrical measuring apparatus for measuring non-electrical quantities (e.g. pH-meters, flue gas testers, lux meters, hygrometers)	kg.
9028 90	Parts and spare parts	kg.
9029 00	Parts and accessories, n.e.s., of the group of apparatus and instruments falling within items 9024 11 to 9028 59, but not recognisable as being parts or accessories of a particular apparatus or instruments of these items	kg.
	Stands for scientific instruments and apparatus and for photographic or similar apparatus, excluding stands designed to form an integral part of such instruments or apparatus:	
9030 10	For geodetic instruments, appliances or apparatus	kg.
9030 30	For photographic or cinematographic apparatus	kg.
9030 80	For other instruments and apparatus	kg.

Only for exports

Trusses, bandages and foot supports:

9031 11	Trusses and bandages	kg.
9031 20	Foot supports	kg.
9032 00	Spectaclecases of materials of all kinds	kg.
9033 00	Complete sets of diving equipment	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Chapter 91

Clocks and watches

General notes.

1. This Chapter does not include:
 - a) Clock and watch glasses (Chapter 70);
 - b) Clock and watch springs, including hair-springs, screws, chains, weights of base metals (Section XV) and other separate parts of a kind falling within other chapters by reason of their nature;
 - c) Clockwork motors not adapted for fitting with escapements (Chapter 84).
2. Other parts of a kind normally used in clocks or watches remain within this Chapter irrespective of whether they can be used for measuring and precision instruments.

Pocket-watches, wrist-watches and the like, including stop-watches:

With cases:

9101 01	Set with precious stones, semi precious stones or pearls	kg.& number
9101 03	Of gold, platinum or platinum metal	kg.& number
9101 04	Of silver	kg.& number
9101 05	Of base metal, whether or not gilded, silvered, or coated with rolled precious metal	kg.& number
9101 09	Of other materials	kg.& number

Note.

Fixed or detachable loops on wrist-watches are deemed to be part of wrist-watch cases. Wrist-watch straps imported or exported with the watches for which they are intended are treated in the same manner as such watches; straps imported or exported separately are to be classified according to their constituent material. Straps of precious metal or rolled precious metal are unvariably classified according to their constituent material.

Pendulum clocks and alarm clocks of a weight not exceeding 1 kg.
(the weight of any detachable case being disregarded):

Pendulum clocks:

9102 10	Electrical	kg.& number
	Other, with cases:	
9102 21	Of precious metal	kg.& number
9102 25	Of base metal, whether or not gilded, silvered, or coated with rolled precious metal	kg.& number
9102 29	Of other materials	kg.& number

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

9102 50	Large alarm clocks, including musical alarm clocks	kg.& number
9102 70	Small alarm clocks and travelling alarm clocks, including musical alarm clocks	kg.& number

Note.

Clocks with movements regulated by a balance-wheel with springs and not by pendulum are also falling within items 9102 10 to 9102 29.

9103 00	Marine chronometers and marine time-keepers	kg.& number
---------	---	-------------

Notes.

1. Marine chronometers are deemed to be timepieces with a detent escapement beating half-seconds and mounted in gimbals intended to keep the clock level regardless of the situation of the case.
2. Marine time-keepers are deemed to be small chronometertype time-pieces beating two-fifth seconds and not mounted in gimbals to keep level.

9104 00	Instrument panel clocks specially constructed for motor vehicles, aircraft and the like	kg.& number
---------	---	-------------

Wall-clocks and standing-clocks, n.e.s.:

9105 10	Astronomical clocks	kg.& number
9105 20	Tower clocks not electrically operated	kg.& number
9105 40	Electrical wall-clocks and standing-clocks (e.g. main- and sideclocks of all kinds, synchronous clocks, tower-clocks)	kg.& number
9105 90	Other wall-clocks and standing clocks	kg.& number

9106 00	Time recording apparatus with clock movements (e.g. time-registers, check clocks and watchmens' tell-tales)	kg.& number
---------	---	-------------

9107 00	Time control devices with clock type movements (e.g. automatic time switches)	kg.& number
---------	---	-------------

Watch cases, whether or not fitted with glass and parts thereof (e.g. bridges, plates, capsules and watch-glass mountings):

9108 01	Set with precious stones, semi precious stones or pearls	kg.
9108 03	Of gold or platinum	kg.
9108 04	Of silver	kg.
9108 05	Of base metal, whether or not gilded, silvered or coated with rolled precious metal	kg.
9108 09	Of other materials	kg.

XVIII. Optic.& medic.instr.etc.; photogr.app.; watches & clocks; music.instr.etc.

9109 00 Finished watch movements, whether or not fitted with dials or hands kg.& number

Note.

Watch movements are movements regulated by a balance-wheel and hair spring and not exceeding twelve millimetres in thickness measured with the plate and bridge pieces.

9110 00 Clock- and watch movements, n.e.s. kg.& number

Clock and watch parts and accessories, n.e.s.:

9111 10	Unassembled movement sets for watches, including plates, driving and transmission parts, but without escapements, mainsprings, loose jewels, dials and hands	kg.
9111 30	Mounted or set watch or clock jewels or the like, natural or synthetic, including worked unmounted jewels, ready for use as watch or clock jewels	g.
9111 50	Dials	kg.
	Other clock and watch parts and accessories:	
9111 91	For clocks classified within items 9101 01 to 9101 09	kg.
9111 99	For other clocks (e.g. for large alarm clocks, wall-clocks and standing clocks)	kg.

Cases for other clock-makers' articles and parts thereof:

9112 01	Of precious metal, or rolled precious metal, or set with precious stones, semi precious stones or pearls	kg.
9112 05	Of base metal	kg.
9112 06	Of wood	kg.
9112 07	Of stone or ceramic material	kg.
9112 08	Of artificial plastic material	kg.
9112 09	Of other materials	kg.

Chapter 92

Musical instruments, sound recorders and reproducers

General notes.

1. This chapter does not include:
 - a) Cinematographic sound films (Chapter 37);
 - b) Sound recorders and sound reproducers for photoelectrically recorded films and sound heads therefor (Chapter 90);
 - c) Toy musical instruments (Chapter 97);
 - d) Collectors' pieces (Chapter 99).
2. This chapter includes musical instruments, wholly or partly of precious metal or rolled precious metal. The same applies to parts and accessories of musical instruments.
3. Parts and accessories of musical instruments are specified with the corresponding instruments except for articles of a kind falling within items 9213 11 to 9213 90. Parts and accessories of a kind suitable for several musical instruments are to be admitted under the item involving the highest rate of duty. General purpose parts and accessories (e.g. hinges, handles and metal fittings) are to be treated according to their nature if imported or exported separately. The same applies to electrical or other equipment, to clock movements and to mechanical movements not fitted with escapements if they are not prepared so as to be recognisable as parts or accessories of musical instruments.
4. Gramophone records, perforated paper and paper-board records and the like are invariably to be classified as separate articles.
5. Amplifying equipment and loud-speakers not forming an integral part of a sound reproducer are classified according to their nature.

Pianos of all kinds with a hammer action, including automatic pianos operated mechanically, pneumatically or electrically but excluding electronic and similar pianos:

Pianos:

New:

9201 21	Pianinos	kg.& number
9201 25	Grand pianos, including baby grand pianos and square pianos	kg.& number
9201 30	Used	kg.& number

XVIII. Optic.& medic.instr.etc.; photogr.app.; watches & clocks; music.instr.etc.

9201 81	Piano-playing mechanisms	kg.& number
9201 84	Piano keyboards	kg.& number
9201 87	Piano hammers	kg.& sets
9201 90	Parts of pianos of all kinds, excluding mechanisms, keyboards and hammers	kg.

Other string musical instruments:

9202 10	Violins	kg.& number
9202 20	Violoncellos, double basses and other string instruments	kg.& number
9202 30	Harps	kg.& number
9202 40	Clavichords, harpsichords and spinets	kg.& number
9202 50	Zithers	kg.& number
9202 60	Guitars and mandolins	kg.& number
9202 70	Other string musical instruments	kg.& number
	Parts and accessories:	
9202 80	Bows for stringed instruments	kg.& number
	Other:	
9202 91	Of violins	kg.
9202 92	Of other stringed instruments	kg.
9202 93	Of harps	kg.
9202 94	Of clavichords, harpsichords and spinets	kg.
9202 99	Of other string musical instruments	kg.

Pipe and reed organs, harmoniums and similar musical instruments:

9203 10	Pipe organs	kg.& number
9203 50	Harmoniums and the like	kg.& number
	Parts:	
9203 80	Keyboards	kg.& number
	Other parts:	
9203 91	For pipeorgans	kg.
9203 95	For harmoniums and the like	kg.

Pianos and organs with electro-acoustic, radio-electric and photoelectric means of producing or amplifying sound and similar musical instruments:

9204 10	Pianos with electro-acoustic means of producing or amplifying sound	kg.& number
9204 30	Organs with electro-acoustic means of producing or amplifying sound	kg.& number
9204 70	Other musical instruments with electro-acoustic, radio-electric and photoelectric means of producing or amplifying sound	kg.& number
	Parts:	
9204 91	Of pianos with electro-acoustic means of producing or amplifying sound	kg.
9204 93	Of organs with electro-acoustic means of producing or amplifying sound	kg.
9204 99	Of other musical instruments with electro-acoustic, radio-electric and photo-electric means of producing or amplifying sound	kg.

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

Orchestrions, street organs and similar musical instruments:

9205 10	Orchestrions, aristonos, street organs and similar musical instruments	kg.& number
9205 90	Parts	kg.

Accordeons of all kinds:

9206 10	Accordeons of all kinds (e.g. accordeons, bandonions, concertinas)	kg.& number
9206 90	Parts	kg.

Mouth organs and parts thereof:

9207 10	Mouth organs	kg./doz.
9207 90	Parts	kg.

Note.

Mouth organs with less than eight tones are deemed to be toy instruments and fall under item 9703 30.

Wind musical instruments, n.e.s.:

9208 11	Saxophones, clarinets and flutes made of metal	kg.& number
9208 19	Trumpets and other wind musical instruments made of metal, excluding ocarinas and pitch pipes	kg.& number
9208 50	Bassoons, flutes, clarinets, oboes, English horns and other wind musical instruments, as a rule made of wood, excluding ocarinas	kg.& number
9208 70	Ocarinas and other wind musical instruments	kg.& number
	Parts and accessories:	
	Of brass wind musical instruments:	
9208 81	Pistons (cylinder and perinets) and parts thereof	kg.
9208 89	Other parts and other accessories	kg.
	Of other wind musical instruments:	
9208 91	Reeds for clarinets and saxophones, tubes for bassoons, oboes and sarrusophones	kg.
9208 99	Other parts and other accessories	kg.

Percussion musical instruments:

9209 10	Drums of all kinds	kg.& number
9209 30	Xylophones and metallophones	kg.& number
9209 50	Cymbals, tom-toms and gongs	kg.& number
9209 70	Other percussion musical instruments (e.g. musical triangles, crescents and the like)	kg.& number
	Parts and accessories:	
9209 91	Of drums, also drum-skins cut to size	kg.
9209 93	Of xylophones and metallophones	kg.
9209 99	Of other percussion musical instruments	kg.

Musical instruments, n.e.s. (e.g. musical boxes of all kinds and musical saws):

9210 10	Musical boxes and other musical box mechanisms, excluding instruments for mechanical reproduction of music (9213 51), musical alarm-clocks (9102 50 to 9102 70) and toy musical instruments (9703 30)	kg.& number
---------	---	-------------

XVIII. Optic.& medic.instr.etc.; photogr.app.; watches & clocks; music.instr.etc.

9210 70	Other musical instruments (e.g. musical saws, maraccas and the like)	kg.& number
9210 90	Parts and accessories	kg.

Sound signalling appliances, n.e.s. (e.g. signalling horns, whistles and decoy calls); parts thereof:

9211 10	Signalling horns and whistles, calling and signalling instruments with reeds, with or without valves, decoy whistles, calls and the like	kg.& number
9211 90	Parts	kg.

Metronomes and tuning forks, music holders for fixing to instruments:

9212 10	Metronomes and tuning forks	kg.
9212 50	Music holders for fixing to instruments	kg.

Accessories and parts of musical instruments:

Metal strings:

9213 11	For pianos	kg.
9213 19	For other musical instruments	kg.
9213 30	Gut strings and other strings	kg.
9213 51	Mechanical devices for playing a musical instrument not combined with the instrument	kg.& number
9213 59	Parts of mechanical devices for playing musical instruments	kg.
9213 90	Perforated paperboard and paper cylinders, discs and rolls for mechanical devices for playing a musical instrument	kg.

Sound-recorders and reproducers; excluding those for photo-electrically recorded films or in conjunction with radio sets:

Dictating machines:

9214 11	Of the magnetic type	kg.& number
9214 19	Other	kg.& number

Other:

Sound-recorders:

9214 31	Of the magnetic type	kg.& number
9214 39	Other	kg.& number

Sound reproducers for electrical sound amplification:

9214 51	Of the magnetic type	kg.& number
9214 59	Other (e.g. record players and automatic record changers)	kg.& number

Combined sound-recorders and reproducers:

9214 71	Of the magnetic type	kg.& number
9214 79	Other	kg.& number
9214 90	Other (e.g. mechanical sound reproducers)	kg.& number

Parts and accessories of sound-recorders and sound-reproducers, excluding those for photoelectrically recorded films; sound carriers:

9215 11	Record cutters, pick-ups and soundboxes	kg.& number
9215 15	Mechanical and electrical gramophone movements, with or without turntables and pick-ups; automatic recordchangers	kg.& number

XVIII. Optic.& medic.instr.etc.; fotogr.app.; watches & clocks; music.instr.etc.

9215 20	Wire-winders and tape-winders	kg.& number
9215 31	Prepared record-blancs, whether or not of wax, prepared cylinders, tapes, films and wire as media for sound-recording	kg.
9215 35	Recorded discs, whether or not of wax, matrices and galvanoplastic forms for the production of records	kg.& number
	Records and cylinders for sound-reproduction:	
9215 41	Musical recordings	kg.& number
9215 49	Other	kg.& number
9215 51	Recorded magnetic tape, wire and other media	kg.& number
9215 59	Mechanically recorded films	kg.
9215 61	Gramophone needles	kg.& number
9215 69	Mounted sapphires	g.& number
9215 90	Other parts and other accessories (e.g. winding handles and dictaphone erasing machines)	kg.

Chapter 93

Arms and ammunition

General notes.

1. This chapter does not include:
 - a) Lighting or signalling flares or rain rockets (Chapter 36);
 - b) Knives or other cutlery (Chapter 82);
 - c) Armoured fighting vehicles and armoured motor vehicles (Chapter 87), military aircraft (Chapter 88) and warships (Chapter 89);
 - d) Toy weapons, crossbows, bows, arrows for archery or fencing foils with protective knob (Chapter 97). The following are deemed to be toy weapons: Carbines of a kind falling within item 9305 10, of a weight of less than one and a half kilogrammes and pistols of a kind falling within item 9305 10, of a weight of less than 0,670 kilogrammes;
 - e) Works of art and collectors' pieces (Chapter 99).
2. Weapons containing precious metal or rolled precious metal remain within this Chapter.
3. The expression "parts of weapons" does not include slings, cleaning and maintenance accessories, tyres and other parts of general use (e.g. screws and pins).
4. Optical elements, suitable for mounting on weapons, imported or exported with their weapons, are treated as parts of these weapons; if imported or exported separately, they are treated according to their nature.

9301 00	Side-arms (e.g. swords, cutlasses and bayonets) and parts thereof	kg.& number
---------	---	-------------

Military weapons (other than side-arms and pistols and revolvers) and parts thereof:

9302 10	Military rifles and carbines	kg.& number
9302 50	Machine-guns and sub-machine-guns	kg.& number
9302 90	Other war weapons	kg.& number

Revolvers and pistols:

9303 10	Revolvers	kg.& number
9303 30	Pistols	kg.& number
9303 50	Target-shooting pistols operating by the firing of an explosive charge	kg.& number
9303 70	Verey light pistols and signalling pistols	kg.& number

XIX. Arms and ammunition

Other fire-arms:

9304 10	Target-shooting carbines (of all kinds and calibres)	kg.& number
9304 20	Small calibre sporting guns and rifles of all kinds (small rifles of 6 to 9 millimetres caliber)	kg.& number
	Sporting guns:	
9304 30	Sporting guns (calibre 12.-.32), with one or two barrels, semi-automatic or automatic	kg.& number
9304 40	Sporting rifles	kg.& number
9304 50	Other sporting guns and rifles (multi-barrelled and smooth-bored as well as rifled)	kg.& number
9304 90	Other fire-arms and similar appliances (e.g. hail cannons, line throwing guns and the like), operating by the firing of an explosive charge	kg.& number

Arms and weapons, n.e.s.:

	Arms, not operating by the firing of an explosive charge:	
9305 10	Air or compressed gas guns and pistols	kg.& number
9305 21	Apparatus for the painless killing of animals and parts thereof	kg
9305 29	Other	kg.& number
	Arms, operating by the firing of an explosive charge:	
9305 91	Apparatus for the painless killing of animals and parts thereof	kg
9305 99	Other	kg.& number

Parts of arms, n.e.s.:

9306 10	Gun barrels (including blanks), gun locks, breeches and other metal parts	kg
9306 50	Butt stocks and other parts of wood, hardened rubber or of artificial plastic material	kg
9306 90	Other parts of arms	kg

9307 00	Filled or unfilled ammunition for military weapons, revolvers or pistols and other ammunition for military weapons; parts thereof	kg.
---------	---	-----

Other ammunition:

9308 10	Filled cartridges	kg.
9308 30	Empty cartridge cases, primed or not	kg.
9308 50	Bullets	kg.
9308 70	Lead shot	kg.
9308 90	Other ammunition, excluding felt cartridge wads (Chapter 59)	kg.

Chapter 94

Furniture, medical-surgical furniture; bedding
and similar articles

General notes.

1. This chapter does not include:
 - a) Pneumatic mattresses, cushions or pillows (Chapter 40);
 - b) Springs, locks, safes and strong-boxes; fittings of base metal of all kinds (Section XV);
 - c) Refrigerators, whether or not specially adapted for refrigerating units (Chapter 84), excluding heat-insulating furniture falling within item 9403 81; furniture specially adapted for sewing-machines (Chapter 84);
 - d) Radio-cabinets (Chapter 85);
 - e) Goods of a kind falling within Chapter 91, especially clock cases;
 - f) Billiard tables of all kinds or other furniture, especially constructed for games (Chapter 97).
2. For the purpose of this chapter the term "furniture" is to be taken as applying **only** to articles which are constructed for placing on the floor or ground.
3. Articles of furniture, whether or not comprising sheets, parts or fittings of glass, marble or other materials, imported or exported, unassembled are to be treated in the same manner as a single assembled article of furniture, provided that the parts are imported or exported together.

Chairs and other seats (including convertible bed-settees) and parts thereof:

Fully upholstered or covered:		
9401 11	With woven fabrics of silk or of synthetic or artificial textiles	kg.
9401 19	With other woven fabrics or with felt, leather or artificial leather	kg.
9401 30	Folding chairs and other seats of materials of all kinds neither fully upholstered or covered nor with tubular steel frames	kg.
Other chairs and seats:		
Of wood:		
9401 52	Bottoms and backs	kg.
Other:		
9401 56	Not upholstered	kg.
9401 58	Partly upholstered	kg.
9401 60	Of osier, sea-wrack, cane, rattan, bamboo or similar materials	kg.

XX. Miscellaneous manufactured articles, n.e.s.

Of base metal:

9401 71	Of tubular steel	kg.
9401 72	Of steel sheet metal	kg.
9401 79	Of other base metal	kg.
9401 90	Of other materials	kg.

Note.

Chairs and other seats are regarded as fully upholstered or covered if no part of the frame-work is visible, except the underside or the parts forming the feet.

Medical or surgical furniture of any material, e.g. operating tables, table-beds for clinical examinations and the like, hospital beds with mechanical fittings etc; dentists' and other operating chairs of any material with mechanical reclining and elevating movements; dentists' pedestal spittoons; parts of the foregoing articles:

9402 10	Hospital beds with mechanical fittings	kg.
9402 20	Operating tables	kg.
9402 30	Dentists' operating chairs	kg.
9402 80	Other medical and surgical furniture	kg.
9402 90	Parts for medical-surgical furniture	kg.

Other furniture and parts thereof:

9403 10	Drawing-tables of all kinds	kg.
9403 20	Lamp tables	kg.
9403 30	Folding furniture of any material, excluding such with tubular steel frames	kg.
	Other furniture:	
	Of wood:	
9403 33	Single pieces of furniture for appartments and kitchens, excluding chairs and seats (9401 11 to 9401 90)	kg.

General note.

This Chapter does not include:

- a) Unused postage, revenue and similar stamps which are valid within the country of their issue (Chapter 49);
- b) Theatrical scenery, studio backgrounds and the like made of painted woven fabrics (Chapter 59);
- c) Pearls and precious stones, worked or unworked (Chapter 71);
- d) Sculptures having a commercial character (e.g. reproductions and castings); they are treated according to their nature.

9901 00 Pictures, paintings, drawings and pastels executed entirely by hand kg.& number

Note.

Frames around pictures, paintings or drawings are treated in the same manner as the framed article; if, however, the value of the frame is greater than the value of the framed article, the frame is to be classified according to its nature.

9902 00 Original prints (e.g. engravings, etchings and lithographs) kg.& number

Note.

1. Original prints are impressions of plates produced by the artist wholly by hand; the prints must be obtained directly and by hand and signed and numbered by the artist. Classification is not affected by the material of which the products consist or by their execution in black or in colour or by the process of production. This does not apply to products made by any mechanical or photo-mechanical process.
2. Frames of original prints are classified in the same manner as frames of pictures, paintings or drawings (cf. note to item 9901 00).
