Erläuterungen

Die Länder Sachsen, Sachsen-Anhalt und Thüringen haben in Sachsen eine gemeinsame JVA für Frauen eingerichtet, in die seit dem Herbst 2009 Gefangene verlegt werden. In der Folge sind die Belegungszahlen im Frauenvollzug zwischen August und November 2009 in Sachsen-Anhalt und Thüringen statistisch stark gesunken, die in Sachsen entsprechend angestiegen.

Gleichzeitig wurde die Sicherungsverwahrten aus Sachsen in den Vollzug nach Sachsen-Anhalt verlegt.

Rheinland-Pfalz hat seit dem 1.1.2010 die Unterbringung der Sicherungsverwahrten aus dem Saarland übernommen.

In mehreren Ländern hat sich im Zeitverlauf die Erfassungspraxis bezüglich der Zugänge in den bzw. der Abgänge aus dem Justizvollzug im Zeitverlauf geändert.

In der Folge sind auch im Bundesgebiet die nachgewiesenen Ergebnisse zu den Bestandsveränderungen im Berichtsmonat über die Zeit nicht miteinander vergleichbar.

Methodische Hinweise

Gemäß den Vorgaben der Vollzugsgeschäftsordnung (VGO Nr. 73) ist von den Justizvollzugsanstalten eine monatliche Nachweisung über den Bestand der Einsitzenden am Ende des Berichtsmonats sowie über Zu- und Abgänge im Berichtsmonat zu erstellen.

Das Statistische Bundesamt erstellt für drei ausgewählte Kalendermonate (März, August, November) aus den zu Länderergebnissen aggregierten Nachweisungen Übersichten für Deutschland und veröffentlicht diese im Internet.

Die Übersichten umfassen die Einrichtungen des Justizvollzugs der Länder; Einrichtungen des Maßregelvollzugs (Unterbringung aufgrund strafrichterlicher Entscheidung gemäß §§ 63, 64 StGB), aber auch Jugendarrestanstalten sind nicht enthalten.

Zahl der Anstalten im offenen/ geschlossenen Vollzug:

Die in der Statistik ausgewiesene Zahl der Anstalten bezeichnet die organisatorisch selbständigen Einrichtungen des Justizvollzugs. Wenn eine (organisatorisch selbständige) Anstalt mehrere (auch örtlich getrennte) Zweig- oder Teilanstalten hat, werden für die Statistik zwar alle Haftplätze und Einsitzenden, aber nur eine Anstalt gezählt.

Somit ist die in der Statistik nachgewiesene Zahl der Anstalten, die immer auch landesspezifische Organisationsformen und -änderungen widerspiegelt, keine geeignete Kennzahl zur Kapazitätsmessung im Strafvollzug. Geeigneter ist hier die Belegungsfähigkeit, also die Zahl der Haftplätze.

Dabei können Haftplätze für den offenen Vollzug auch in Anstalten, deren organisatorische Hauptstelle als geschlossene Anstalt geführt wird, vorgehalten werden – und umgekehrt.

Belegung am Erhebungsstichtag:

Zur aktuellen Belegung in den Justizvollzugsanstalten werden die am Erhebungsstichtag (Monatsletzter, 24.00 Uhr) physisch anwesenden Häftlinge gezählt.

Vorübergehend abwesende Personen, also etwa Hafturlauber oder flüchtige Gefangene, werden nicht zum aktuellen Bestand gerechnet.

Sonstige Freiheitsentziehung:

Unter der Position "Sonstige Freiheitsentziehung" werden in der Justizvollzugsstatistik v.a. die Vollzugsformen Abschiebungshaft, Strafarrest (gegen Angehörige der Bundeswehr) und Zivilhaft erfasst.

Zugänge/ Abgänge: Als Zu- bzw. Abgang eines Berichtsmonats werden alle Bestandsveränderungen in den Anstalten gezählt, die im Gefangenenbuch einzutragen sind.

Als Zugang zählt beispielsweise der (erstmalige) Antritt einer Freiheitsstrafe, aber auch die Überstellung aus einer anderen Anstalt oder einer anderen Vollzugsform oder die Rückkehr nach vorübergehender Abwesenheit etwa wegen Hafturlaubs. Ein Strafantritt liegt in der Terminologie der Statistik dagegen nur vor, wenn eine Freiheits- oder Jugendstrafe angetreten wird. Dabei ist es unerheblich, ob der Gefangene vorher in Freiheit oder etwa in Untersuchungshaft war.

Vorübergehend abwesende Personen:

Die am Erhebungsstichtag vorübergehend abwesenden Personen werden nicht zur aktuellen Belegung in den Justizvollzugsanstalten gezählt, sondern im Buchwerk der Justizvollzugsanstalten getrennt erfasst und in den nachfolgenden Übersichten nachrichtlich - jeweils für die Untersuchungshaft sowie die Strafhaft getrennt - ausgewiesen.

Die zur Statistik erfassten vorübergehend abwesenden Personen in der Strafhaft sind vor allem Gefangene im offenen Vollzug, die sich im Haft- bzw. Wochenendurlaub befinden. Je nach Erhebungszeitpunkt schwankt somit die Zahl der vorübergehend abwesenden Personen und in der Folge die erfasste Gesamtbelegung in den Justizvollzugsanstalten erheblich.

Eine systematisch unterdurchschnittliche Belegung ergibt sich beispielsweise jeweils zum Jahresende infolge von Weihnachtsurlaub im offenen Vollzug und der so genannten Weihnachtsamnestie (Vorziehen der Entlassung um wenige Tage/ Wochen, falls das Haftende in die zweite Dezemberhälfte fällt).

Eintritte und Erstaufnahmen:

Abweichend von den sonstigen monatsbezogenen Informationen zur Bestandsveränderung in den Justizvollzugsanstalten weist die Statistik die Eintritte und Erstaufnahmen bezogen auf das abgelaufene Kalenderjahr aus.

Die sich aus Spalte 1a des Gefangenenbuchs ergebende Zahl der Eintritte bezeichnet den Zugang in eine bestimmte Anstalt (Straf-, Untersuchungshaft-, Abschiebehaftanstalt etc.). Die Rückkehr nach vorübergehender Abwesenheit wird nicht als neuer Eintritt gezählt.

Die Zahl der Erstaufnahmen ergibt sich aus Spalte 1b des Gefangenenbuchs und bezeichnet die Eintritte derjenigen Gefangenen, die sich zuvor in Freiheit befunden haben. Die Überstellung eines Verurteilten aus der Untersuchungshaft zum Strafantritt wird in der Strafanstalt zwar als Eintritt, nicht aber als Erstaufnahme gezählt.

Aussetzung des Strafrestes im Wege der Gnade:

Als Aussetzung der Reststrafe im Gnadenwege wird zur Statistik die Entlassung in die Freiheit wegen Aussetzung oder Erlass des Strafrestes nach der Gnadenordnung sowie im Rahmen der Gnadenerweise zu Weihnachten ("Weihnachtsamnestie") gezählt.

In einigen Ländern wird zudem die Entlassung in die Freiheit zum Halbstrafenzeitpunkt bei Ersatzfreiheitsstrafen als "Aussetzung des Strafrestes im Wege der Gnade" gezählt. Die entsprechenden Angaben sind zwischen den Ländern daher nur eingeschränkt vergleichbar.
