

A111102-99

Gegenüberstellung der Positionen
des „Internationalen Warenverzeichnisses für den Außenhandel“ (SITC, Rev. 3)
und der Warennummern des Warenverzeichnisses
für die Außenhandelsstatistik (WA)

SITC, Rev. 3/WA (1999)

Hinweise

- 1) Die zweite revidierte Fassung des internationalen Warenverzeichnisses für den Außenhandel von 1975 - Standard International Trade Classification, Rev. II - ist 1986 durch eine Neufassung (SITC, Rev. 3) ersetzt worden. Diese Neufassung war durch die Anpassung an das „Harmonisierte System zur Bezeichnung und Codierung der Waren“ (HS) des Rates für die Zusammenarbeit auf dem Gebiet des Zollwesens (RZZ) notwendig geworden.

Die von den Vereinten Nationen herausgegebene SITC, Rev. 3 umfaßt:

10 einstellige Teile
67 zweistellige Abschnitte
261 dreistellige Gruppen
1 033 vierstellige Untergruppen
3 118 fünfstellige Positionen

- 2) Die vorliegende Gegenüberstellung weicht in folgenden Fällen von der Originalfassung der SITC, Rev. 3 ab:
- a) Postpakete (911.0) werden ihrem Inhalt entsprechend erfaßt.
Goldmünzen werden unter 972.0 nachgewiesen.
 - b) Das Warenverzeichnis für die Außenhandelsstatistik enthält - abweichend vom HS - bestimmte Sondernummern (Kap. 98), die in der Originalgliederung der SITC nicht sinnvoll zugeordnet werden können. Für diese Zwecke sind zusätzliche Positionen in der SITC geschaffen worden.
 - c) Die Gegenüberstellung umfaßt neben den Warennummern des Warenverzeichnisses für die Außenhandelsstatistik noch folgende Nummern, die aus erhebungs- oder aufbereitungstechnischen Gründen benötigt werden:

| | |
|------------|---|
| 9930 24 00 | |
| 9930 27 00 | Schiffs- und Luftfahrzeugbedarf |
| 9930 99 00 | |
| 9990 99 10 | Rückwaren |
| 9990 99 26 | Ersatzlieferungen |
| 9990 99 28 | Als Güter der Bundesregierung angemeldete Waren |
| 9990 24 00 | |
| 9990 99 29 | Unvollständig angemeldete Waren |

Diese Warennummern sind entweder zusammen mit den korrespondierenden Nummern des HS bei den entsprechenden SITC-Positionen eingeordnet oder unter 931.0 nachgewiesen.

Sortimente von verschiedenen Waren sind ebenfalls in 931.0 enthalten.

- 3) Wenn einer SITC-Position sämtliche 8stelligen Warennummern einer HS-Position oder HS-Unterposition gegenübergestellt sind (das ist der Regelfall, Ausnahmen gibt es nur bei SITC-Gruppe 334), ist nur die 4stellige HS-Position bzw. 6stellige HS-Unterposition angegeben.
