Introduction

- 1) The reports based on the United Nations "Standard International Trade Classification" (Statistical Papers, Series M, No. 10) are published monthly. Annual data, which are final, are contained in the report for the month of December.
- 2) Groups which are below the exemption limit of 10 000 US-\$ are deleted in table G. Likewise countries, the imports or exports of which amount to less than 10 000 US-\$ are not published in table F.
The annual data, however, contain also values of less than 10 000 US-\$.
The country data relate to countries of production or consumption.
- 3) The wording of the headings and items and the designation of the countries are given in an abbreviated form.
A Classification of Countries showing the detailed areas covered, has been printed on the inside cover of this publication.
- 4) These tables relate to the Special Trade of the Federal Republic of Germany (excl. the Saar), incl. Berlin (West).
See the Introduction in
"Der Aussenhandel der Bundesrepublik Deutschland", Part 1, Nos. 1-7, 9-13 and 15. These numbers are analogically applicable to the present publication, too.
- 5) A survey in which the SITC-items have been compared with the numbers of the Commodity Classification for Foreign Trade Statistics of the Federal Republic of Germany can be supplied on request.
- 6a) Dairy products, n.e.s. (item 02909) are contained in items 04809 and 09909.
- b) Electric energy (item 31501) is not shown.
- c) Postal packages (item 91101) are treated according to their contents.
- d) Prior to January 1956, returned goods and their replacements were shown according to their kind; when replaced free of charge, however, these returned goods, as well as the replacements, were not contained in foreign trade statistics. Beginning with January 1956, goods returned in imports and exports transactions are without any exception shown in item 931 01, replacements in item 931 02.
- e) Other special transactions such as personal effects of travellers and immigrants, samples and articles temporarily imported or exported remain excluded from foreign statistics.
- f) Unrefined and partly worked gold - not for international payments - and gold & silver coins are shown in division 99 or in group 999 respectively.
- 7) Data on the Volume of Imports and Exports by Sections of the SITC and on the Index of Current Value, Volume and Average Value by Sections of the SITC during the period prior to July 1956 are contained in
"Statistische Berichte" V/33/5.
- 8) Data of the year of 1957 are only preliminary.
