Introductory Notes

1. The tables reproduced in the present publication relate to the special trade of the Federal Republik of Germany (without the Saar) including Berlin (West).

The introductory notes to "Der Aussenhandel der Bundesrepublik Deutschland" (Foreign Trade of the Federal Republic of Germany), Part 1, ciphers 1 to 8, 10 to 14, and 17 are analogously applicable also to the present publication.

2. The specification and grouping of the commodities in the tables are in accord with the practice followed in the Standard International Trade Classification (SITC) of the United Nations (Statistical Papers, Series M, No. 10).

In many items, the commodities have been specified in an abbreviated form; their complete specification can be seen from the Classification mentioned above.

A comparison between the SITC items and the items used in the Commodity Code for Foreign Trade Statistics of the Federal Republic of Germany has been attached as an appendix to the annual volume of Part 1 of the present publication series. On request, this comparison can be obtained from Statistisches Bundesamt, Wiesbaden direct.

3. a) The SITC groups 013 (meat canned and meat preparations, canned and not canned) and 032 (fish and fish preparations, canned or not) have not been sub-divided by individual SITC items.
b) The data relating to SITC items 055 02 and 055 03 have been combined and classified in this way under SITC item 055 09 (other vegetables preserved and vegetable preparations).
c) "Dairy products, n.e.s. (ice cream, ice cream powders, malted milk compounds and mixtures, dehydrated products, etc.)" (SITC item 029 09) are included in SITC items 048 09 and 099 09.
d) "Meal and flour of maize (corn)" (SITC item 047 02) are included in SITC item 047 09.
e) "Silver and platinum ores" (SITC group 285) and "auriferous ores" are not shown separately.

- f) "Building Board of paper or of pulp, not impregnated" (SITC item 641 05) are included in "Fibreboards (not paperboards)" (SITC item 631 03)
 - g) "Electric energy" (SITC item 315 01) is not recorded.
 - h) "Postal packages" (SITC item 911 01) are classified according to their contents.
 - i) Up to December 1955, goods returned and replaced were classified according to their nature. Goods returned, which were replaced free of charge, and these replacements themselves were up to December 1955 not taken up in foreign trade statistics.
Beginning with January 1956, goods returned in imports and exports transactions are classified under SITC item 931 01, and goods replaced under SITC item 931 02.
 - k) All other "special transactions" included in SITC item 931 02 are classified according to their nature unless they are exempt from the obligation to be reported.
 - l) "Gold: bullions, senis, coins (incl. silver coins)" not intended for international payments are combined under SITC item 999 99.
4. In the monthly volumes from January to November, only those countries have been reproduced in table F where imports or exports amounted to a minimum of 10 000 US-Dollars.
The December Volume, however, contains data on all countries. Table G is reproduced only in the December Volume and shows figures relating to 1958.
 5. Data on countries relate to countries of production and countries of consumption.
Countries have been given in an abbreviated form. A list of countries with information on their territorial coverage has been reproduced on the inside of the cover of the present volume.
 6. Particulars on the method used in the calculation of the volume and the indices of foreign trade can be seen from the essay "Neuberechnung von Aussenhandelsindizes für die Bundesrepublik Deutschland auf der Basis 1954" published in "Wirtschaft und Statistik", 10 th Year, No. 2, p. 82
 7. Data relating to 1958 are provisional.
 8. Alterations of figures already released are due to corrections made subsequently.
