OF THE FEDERAL REPUBLIC OF GERMANY

Part 5

Special Trade according to the

Standard International Trade Classification (SITC)

July 1959

Jahrgang 1959 - Nr. 7

VERLAG W. KOHLHAMMER GMBH / STUTTGART UND MAINZ

Important

On 6 July 1959 the Saar has been economically incorporated into the Federal Republic of Germany. From this date forward, the report area for foreign trade statistics covers the Saar, too (see No. 1 of the Introductory Notes to this volume). Thus, beginning with the day of integration, the results of foreign trade statistics are including the figures on goods traffic between the Saar and foreign countries. For the report period from 6 July 1959 forward, however, goods traffic between the Saar and the hitherto reported area is no longer shown as foreign trade, for it has become domestic trade. When judging the results for 1959 it must therefore be taken into consideration that data for the hitherto reported area (till 5 July 1959) are represented together with figures for the new report area (from 6 July 1959 forward).

From July 1959 till further notice, results on goods traffic between the Saar and foreign countries as well as results on goods traffic of the Federal Republic of Germany excluding that of the Saar shall additionally be published monthly in the Supplement to Part 1 of the Series "Der Aussenhandel der Bundesrepublik Deutschland".

Comparable figures on goods traffic between the Saar and foreign countries for the report periods prior to the economical integration are not available. But in this connection it is pointed to the study "Der Aussenhandel der Bundesrepublik Deutschland und die wirtschaftliche Eingliederung des Saarlandes" published in "Wirtschaft und Statistik", No. 7, page 345, from which at least the extent of the hitherto existing foreign trade of the Saar can be seen.

Introductory Notes

1. The tables reproduced in the present publication relate to the special trade of the Federal Republic of Germany (up to July 5th 1959 without the Saar) including Berlin (West).

The introductory notes to "Der Außenhandel der Bundesrepublik Deutschland" (Foreign Trade of the Federal Republic of Germany), Part 1, ciphers 1 to 8, 10 to 14, and 17 are analogously applicable also to the present publication.

2. The specification and grouping of the commodities in the tables are in accord with the practice followed in the Standard International Trade Classification (SITC) of the United Nations (Statistical Papers, Series M, No. 10).

In many items, the commodities have been specified in an abbreviated form; their complete specification can be seen from the Classification mentioned above.

A comparison between the SITC items and the items used in the Commodity Code for Foreign Trade Statistics of the Federal Republic of Germany has been attached as an appendix to the annual volume of Part 1 of the present publication series. On request, this comparison can be obtained from Statistisches Bundesamt, Wiesbaden direct.

3. a) The SITC groups 013 (meat canned and meat preparations, canned and not canned) and 032 (fish and fish preparations, canned or not) have not been sub-divided by individual SITC items.
- b) The data relating to SITC items 055-02 and 055-03 have been combined and classified in this way under SITC item 055-09 (other vegetables preserved and vegetable preparations).
- c) "Dairy products, n.e.s. (ice cream, ice cream powders, malted milk compounds and mixtures, dehydrated products, etc.)" (SITC item 029-09) are included in SITC items 048-09 and 099-09.
- d) "Meal and flour of maize (corn)" (SITC item 047-02) are included in SITC item 047-09.
- e) "Silver and platinum ores" (SITC group 285) and "auriferous ores" are not shown separately.

- f) "Building board of paper or of pulp, not impregnated" (SITC item 641-05) are included in "Fibreboards (not paperboards)" (SITC item 631-03).
- g) "Electric energy" (SITC item 315-01) is not recorded.
- h) "Postal packages" (SITC item 911-01) are classified according to their contents.
- i) Up to December 1955, goods returned and replaced were classified according to their nature. Goods returned, which were replaced free of charge, and these replacements themselves were up to December 1955 not taken up in foreign trade statistics.
Beginning with January 1956, goods returned in imports and exports transactions are classified under SITC item 931-01, and goods replaced under SITC item 931-02.
- k) All other "special transactions" included in SITC item 931-02 are classified according to their nature unless they are exempt from the obligation to be reported.
- l) "Gold: bullions, semis, coins (incl. silver coins)" not intended for international payments are combined under SITC item 999-99.

4. In the monthly volumes from January to November, only those countries have been reproduced in table F where imports or exports amounted to a minimum of 10 000 US-Dollars.

The December Volume, however, contains data on all countries. Table G is reproduced only in the December Volume and shows figures relating to 1959.

5. Data on countries relate to countries of production and countries of consumption. Countries have been given in an abbreviated form. A list of countries with information on their territorial coverage has been reproduced on the inside of the cover of the present volume.

6. Particulars on the method used in the calculation of the volume and the indices of foreign trade can be seen from the essay "Neuberechnung von Aussenhandels-indices für die Bundesrepublik Deutschland auf der Basis 1954" published in "Wirtschaft und Statistik", 10 th Year, No 2, p. 82

7. Data relating to 1959 are provisional.

8. Alterations of figures already released are due to corrections made subsequently.
