Introductory Notes

1. The tables reproduced in the present publication relate to the special trade of the Federal Republic of Germany (up to July 5th 1959 without the Saar) including Berlin (West).

The introductory notes to "Der Außenhandel der Bundesrepublik Deutschland" (Foreign Trade of the Federal Republic of Germany), Part 1, ciphers 1 to 8, 10 to 14, and 17 are analogously applicable also to the present publication.

2. The specification and grouping of the commodities in the tables are in accord with the practice followed in the Standard International Trade Classification (SITC) of the United Nations (Statistical Papers, Series M, No. 10).

In many items, the commodities have been specified in an abbreviated form; their complete specification can be seen from the Classification mentioned above.

A comparison between the SITC items and the items used in the Commodity Code for Foreign Trade Statistics of the Federal Republic of Germany has been attached as an appendix to the annual volume of Part 1 of the present publication series. On request, this comparison can be obtained from Statistisches Bundesamt, Wiesbaden direct.

3. a) The SITC groups 013 (meat canned and meat preparations, canned and not canned) and 032 (fish and fish preparations, canned or not) have not been sub-divided by individual SITC items.
- b) The data relating to SITC items 055-02 and 055-03 have been combined and classified in this way under SITC item 055-09 (other vegetables preserved and vegetable preparations).
- c) "Dairy products, n.e.s. (ice cream, ice cream powders, malted milk compounds and mixtures, dehydrated products, etc.)" (SITC item 029-09) are included in SITC items 048-09 and 099-09.
- d) "Meal and flour of maize (corn)" (SITC item 047-02) are included in SITC item 047-09.
- e) "Silver and platinum ores" (SITC group 285) and "auriferous ores" are not shown separately.

- f) "Building board of paper or of pulp, not impregnated" (SITC item 641-05) are included in "Fibreboards (not paperboards)" (SITC item 631-03).
- g) "Electric energy" (SITC item 315-01) is not recorded.
- h) "Postal packages" (SITC item 911-01) are classified according to their contents.
- i) Up to December 1955, goods returned and replaced were classified according to their nature. Goods returned, which were replaced free of charge, and these replacements themselves were up to December 1955 not taken up in foreign trade statistics.
- Beginning with January 1956, goods returned in imports and exports transactions are classified under SITC item 931-01, and goods replaced under SITC item 931-02.
- k) All other "special transactions" included in SITC item 931-02 are classified according to their nature unless they are exempt from the obligation to be reported.
- l) "Gold: bullions, semis, coins (incl. silver coins)" not intended for international payments are combined under SITC item 999-99.
4. In the monthly volumes from January to November, only those countries have been reproduced in table F where imports or exports amounted to a minimum of 10 000 US-Dollars.
- The December Volume, however, contains data on all countries. Table G is reproduced only in the December Volume and shows figures relating to 1959.
5. Data on countries relate to countries of production and countries of consumption. Countries have been given in an abbreviated form. A list of countries with information on their territorial coverage has been reproduced on the inside of the cover of the present volume.
6. Particulars on the method used in the calculation of the volume and the indices of foreign trade can be seen from the essay "Neuberechnung von Aussenhandels-indices für die Bundesrepublik Deutschland auf der Basis 1954" published in "Wirtschaft und Statistik", 10 th Year, No 2, p. 82
7. Data relating to 1959 are provisional.
8. Alterations of figures already released are due to corrections made subsequently.

Der Aussenhandel der Bundesrepublik Deutschland

(Foreign Trade of the Federal Republic of Germany)

In this publication series all data on foreign trade statistics are reproduced in several independent parts showing a clear arrangement and a detailed classification. The individual monthly volumes contain, at the same time, the results of the previous part of year (for instance the June volume simultaneously those of the first half-year).

Part 1: Summary Tables

This publication — being the first to appear each month — includes import and export figures of the special trade classified by groups of commodities, tables classified by countries and groups of countries (continents, groups of OEEC countries), as well as tables on volume and indices of foreign trade. An enclosed supplement presents monthly tables on import and export in general trade classified by groups of commodities and on the proportion of the Federal Laender and Berlin (West) to the total export.

52 pages — Monthly subscription rate: DM 2.—.

There appears a special annual volume of Part 1 containing a comprehensive table programme (special trade, general trade, customs storage trade, transformation under customs control).

Part 2: Commodities by Countries of Production and Countries of Consumption

In this publication — being available about 6 weeks after the report month — imports and exports are shown for approximately 1,800 commodity items classified by major countries of production or of consumption respectively. The December volume is at the same time the annual volume.

About 250 pages — Monthly subscription rate: DM 9.50.

From 1958 a supplement to Part 2 has additionally been issued each year with data on important types of transactions of import and export (for instance customs storage trade).

Part 3: Areas of Purchase and Areas of Sale by Groups and Sub-Groups of Commodities

The main table contained in this volume — from 1958 being issued in quarterly intervals — shows figures on imports and exports to and from the individual countries of production and consumption classified by groups of commodities.

About 250 pages — Quarterly subscription rate: DM 8.—.

In addition, two supplements to Part 3 are issued each year with data on the channels in foreign trade transactions of the Federal Republic of Germany.

Part 4: Data on Special Trade according to Commodities (without Reference to the Countries)

This publication appeared the last time for the report month December 1954.

Part 5: Special Trade according to the Standard International Trade Classification (SITC)

This volume is issued in English (approximately 8 weeks after the report month) and contains figures on foreign trade classified in accordance with the Standard International Trade Classification (SITC) with special reference to the countries of production and of consumption.

About 125 pages — Monthly subscription rate: DM 4.—.

Part 6: Transit through the Federal Republic of Germany

In this volume, the quantities of commodities transported through the Federal Republic of Germany are shown according to groups of commodities and according to countries of consignment as well as according to the main customs districts where commodities enter and leave (from January 1959 including data on commodities loaded and unloaded in sea and air traffic).

34 pages — Monthly subscription rate: DM 1.—.

Supplementary Series: "Der Aussenhandel des Auslandes" (Foreign Trade Abroad)

In this series reports are issued at irregular intervals on the development of foreign trade in individual countries. The data are derived from foreign trade statistics abroad and are supplemented by figures provided by foreign trade statistics of the Federal Republic of Germany. Individual reports have so far been issued for more than 50 countries.
