Methodical Introduction

1. The figures shown in the present publication relate to special trade of the Federal Republic of Germany (up to 5 July 1959 excluding the Saar) including Berlin (West).
Accordingly, the introduction to Part 1 of "Der Außenhandel der Bundesrepublik Deutschland" (Foreign Trade of the Federal Republic of Germany) is applicable mutatis mutandis to the present publication.
2. Beginning with January 1961, the commodities have been grouped in accord with the Classification for Statistics and Tariffs (CST) of the Statistical Office of the European Communities. Except for a few expansions, the CST is consistent with the Revised Standard International Trade Classification (SITC revised), which in January 1961 took the place of the former SITC in accord with a relevant recommendation of the Statistical Commission of the United Nations.
When comparing the figures compiled according to the former SITC with those compiled according to the new CST, due account must be taken of the conversions and amendments which were made in the revision.
Particulars on the practices followed in the classification of the commodities can be seen from a comparison between the code numbers of the CST and those of the "Warenverzeichnis fuer die Außenhandelsstatistik" (Commodity Classification for Foreign Trade Statistics). This comparison can be obtained in the form of a special paper from the Federal Statistical Office in Wiesbaden; but it will also be published as Appendix 1 in the annual volume of Part 1 of this publication series.
Under many of the items included, the commodities have been specified in an abridged form. The unabridged specifications can be seen from the original version of the CST, which has been issued - in several languages - by the Statistical Office of the European Communities in Brussels.
3. The data shown in the present publication deviate in some points from the original version of the CST.
The products below, which are not particularly accounted for in German foreign trade statistics, have been specified under different items of the CST:
a) see animals, dogs and cats and other animals (941.0) under 002.9;
b) figs, fresh (051.9-1) under 052.0-2;

- c) gauze, grey (652.1-1) or terry fabrics, grey (652.1-2) under 652.2-1 or 652.2-2 respectively;
- d) unrefined gold (gold ores) (971.1 = X00.1) under 285.0-1;
- e) semis (including blanks) for seamless tubes (672.9) under 678.2

Electric energy (351.0) is not shown in German foreign trade statistics.

In German foreign trade statistics, iron for re-utilization is covered by group 282 "scrap and waste of iron or steel".

Postal packages (911.0) are classified according to their contents.

Gold (X00) is covered by group 971 of Part 9.

Current notes and coin (other than gold) (981 = X10) are regarded as payment media and as such not included in foreign trade statistics.

4. In the January to November volumes, only those countries where imports or exports amounted to at least 10 000 \$ are included in the various groups in Table F, while the corresponding limit in the December Volume is 5 000 \$. In Table G, which is only given in the December Volume, only those groups of the CST are listed under the various countries where imports or exports in the year concerned amounted to at least 5 000 \$.
5. The data on countries relate to the countries of production and the countries of consumption. The countries themselves have been listed in an abbreviated form. A list of these countries with information of the territory covered by each of them is to be found on the inside of the cover of this volume.
6. Particulars on the method used for calculating the volume and the indices of foreign trade can be seen from the essay "Neuberechnung von Außenhandelsindizes für die Bundesrepublik Deutschland auf der Basis 1954" (New Computation of Foreign Trade Indices for the Federal Republic of Germany with 1954 as the Base), published in "Wirtschaft und Statistik", 10th Year, No. 2, p. 82, and in the series "Statistische Berichte", No. V/33/5. Both these publications have been issued by the Federal Statistical Office.
7. The 1961 figures are provisional.
8. Alterations of figures already released at an earlier date are due to subsequent corrections.
