Methodological Introduction

1. The figures shown in this publication relate to the Special Trade of the Federal Republik of Germany.

Therefore, the introductory remarks to Series 1 of the Subject-Matter Series: "Außenhandel" (Foreign Trade) are also applicable mutatis mutandis to this publication.

2. The grouping of the commodities has been made according to the "Classification for Statistics and Tariffs (CST)" of the Statistical Office of the European Communities. The CST corresponds to the Revised Standard International Trade Classification (SITC revised), which upon a recommendation of the Statistical Commission of the United Nations has replaced the former SITC since January 1961. Particulars on the allocation of commodities can be drawn from a comparison of the numbers of the CST with those of the "Warenverzeichnis für die Außenhandelsstatistik" (Commodity Classification for Foreign Trade Statistics). This can be obtained as a special print directly from the Federal Statistical Office in Wiesbaden; but it will also be published as Appendix 1 in the annual volume of Series 1 of this subject-matter series.

The designations of commodities have been abridged for many items. The unabridged wording can be seen from the original version of the CST, issued in several languages by the Statistical Office of the European Communities in Brussels.

3. The present publication deviates in some points from the original version of the CST.

The following products which are not particularly ascertained by German foreign trade statistics are classified under other CST-items:

Blanks for tubes and pipes (672.9) under 678.2.

Electric energy (351.0) is not shown in German foreign trade statistics.

Iron for re-utilization (Nutzeisen) is covered by group 282 "Waste and scrap of iron or steel".

Postal packages (911.0) are classified according to their contents.

Gold (X00) is covered by group 971 in Part 9.

Coins in circulation (981 = X10) are legal tender and as such not included in foreign trade statistics.

4. In Table F only those countries for which the reported value of imports or exports was at least \$ 15,000 are presented under the individual groups.

Table G which is given only in the December volume presents under the various countries merely those groups of the CST, for which the reported value for imports or exports was at least \$ 10,000 in the year concerned.

5. The data on countries relate to the countries of production and the countries of consumption. The designations of the countries are abbreviated. A list of the countries with information on the territory covered by them is given in the appendix of this publication.
6. Particulars on the method applied for calculating the volume and the indices are provided by the article "Neuberechnung des Außenhandelsvolumens und der Außenhandelsindices auf Basis 1960" (New Computation of the Volume and the Indices of Foreign Trade, Base 1960) in "Wirtschaft und Statistik", Year 1963, No. 10, October 1963, issued by the Federal Statistical Office.
7. The figures for 1966 are provisional.
8. Changes in the figures published at an earlier date are due to subsequent corrections.
