| Ein- und Ausfuhr (Spezialhandel) nach Abschnitten und Kapiteln des Warenverzeichnisses für die Außenhandelsstatistik | 4 | | |

Methodische Vorbemerkung

- Die Rechtsgrundlagen der Außenhandelsstatistik bilden:
 - Das Gesetz über die Statistik für Bundeszwecke (StatGes) vom 3. 9. 1953 (Bundesgesetzblatt I, S. 1314).
 - das Gesetz über die Statistik des grenzüberschreitenden Warenverkehrs (Außenhandelsstatistik — AHStatGes) vom 1. 5. 1957 (Bundesgesetzblatt I, Seite 413),
 - die Verordnung zur Durchführung des Gesetzes über die Statistik des grenzüberschreitenden Warenverkehrs (Außenhandelsstatistik — AHStatDV) in der Fassung vom 13. 1. 1964 (Bundesgesetzblatt I, Seite 9).
- Die Außenhandelsstatistik der Bundesrepublik Deutschland stellt den grenzüberschreitenden Warenverkehr des Erhebungsgebietes (s. Ziff. 3) mit dem Ausland dar.
Ausland im Sinne der Außenhandelsstatistik ist das Gebiet außerhalb des Erhebungsgebietes und außerhalb der Währungsgebiete der DM-Ost.
Der Warenverkehr mit den Währungsgebieten der DM-Ost wird in der Interzonenhandelsstatistik nachgewiesen und ist in der Außenhandelsstatistik nicht enthalten.
- Das Erhebungsgebiet der Außenhandelsstatistik umfaßt die Bundesrepublik Deutschland (ohne die Badischen Zollausschlüsse und bis 5. Juli 1959 ohne das Saarland) und die österreichischen Gemeinden Jungholz und Mittelberg (als Zollanschlüsse).
- Den Ergebnissen der Außenhandelsstatistik liegen im allgemeinen die Angaben der Einführer und Ausführer zugrunde.
- Der grenzüberschreitende Warenverkehr wird in der Außenhandelsstatistik als Generalhandel (vgl. die Vorbemerkung zur Übersicht 1 der Ergänzungsbeilage zur Reihe 1), als Spezialhandel und als Durchfuhr (vgl. Reihe 6) nachgewiesen. Der Spezialhandel enthält im wesentlichen die Waren, die zum Gebrauch, zum Verbrauch, zur Bearbeitung oder Verarbeitung in das Erhebungsgebiet eingehen bzw. aus der Erzeugung, der Bearbeitung oder Verarbeitung des Erhebungsgebietes stammen und ausgehen.
- Die Angaben der vorliegenden Veröffentlichung beziehen sich auf den Spezialhandel. Dieser umfaßt:
 - in der Einfuhr
 - die unmittelbare Einfuhr von Waren
in den freien Verkehr,
zur aktiven Veredelung (Eigenveredelung und Lohnveredelung),
nach passiver Veredelung,
 - die Einfuhr von ausländischen Waren aus Lager (Zollgut- und Freihafenlager) einschließlich einiger Sonderfälle in die unter 1. genannten Einfuhrarten;
 - in der Ausfuhr
 - die Ausfuhr von Waren
aus dem freien Verkehr,
nach aktiver Veredelung (Eigenveredelung und Lohnveredelung),
zur passiven Veredelung.Bei den unter a) und b) genannten Einfuhr- bzw. Ausfuhrarten ist:
„aktive Veredelung“ die zollbegünstigte Veredelung (Bearbeiten, Verarbeiten und Ausbessern) von ausländischen Waren im Zollgebiet sowie die besonders zugelassene Bearbeitung und Verarbeitung von abgabepflichtigen ausländischen Waren in den Zollfrei gebieten (ausgenommen im Schiffsbau), dabei ist „Eigenveredelung“ die Veredelung von ausländischen Waren im Erhebungsgebiet für Rechnung des im Erhebungsgebiet ansässigen Eigentümers und „Lohnveredelung“ die Veredelung von ausländischen Waren im Erhebungsgebiet für Rechnung einer außerhalb des Erhebungsgebietes ansässigen Person;
„passive Veredelung“ die zollbegünstigte Veredelung (Bearbeiten, Verarbeiten und Ausbessern) von Waren des freien Verkehrs im Ausland.
Veredelungsgeschäfte, die nicht im Rahmen eines aktiven oder passiven Veredelungsverkehrs abgewickelt werden (sogenannte wirtschaftliche Veredelung), sind als unmittelbare Einfuhr in den freien Verkehr bzw. als Ausfuhr aus dem freien Verkehr nachgewiesen.
- Als Schiffs- und Luftfahrzeugbedarf wird im Spezialhandel die Lieferung ausländischer Waren aus Lager für den Bedarf ausgehender deutscher Seeschiffe und Luftfahrzeuge (Einfuhr) sowie die Lieferung von Waren aus dem freien Verkehr und aus dem aktiven Veredelungsverkehr für den Bedarf ausgehender fremder Seeschiffe und Luftfahrzeuge (Ausfuhr) nachgewiesen. Die betreffenden Angaben sind in den unter Ziffer 6 a 2 bzw. 6 b genannten Einfuhr- bzw. Ausfuhrarten enthalten. Die als Schiffs- und Luftfahrzeugbedarf angemeldeten Waren werden zusammengefaßt unter den Nummern 2498 00, 2798 90, 3498 00 und 9898 00 nachgewiesen. Ausgenommen von dieser Regelung sind Heiz- und Treibstoffe als Schiffs- und Luftfahrzeugbedarf, die den hierfür vorgesehenen Warennummern zugeordnet werden. Eine ländermäßige Aufgliederung der als Schiffs- und Luftfahrzeugbedarf angemeldeten Angaben erfolgt nicht (siehe Länderposition „Schiffs- und Luftfahrzeugbedarf“).
- In den Ergebnissen der Außenhandelsstatistik sind nicht enthalten:
Waren und Verkehrsvorgänge, die gemäß § 31 AHStatDV von der Anmeldung zur Außenhandelsstatistik befreit sind, darunter insbesondere Waren, die von in der Bundesrepublik stationierten ausländischen Streitkräften selbst eingeführt oder ausgeführt werden, sowie Gold und Silber für internationale Zahlungen und elektrischer Strom.
Bei der statistischen Bearbeitung bestimmter Kleinsendungen wird bei der Ausfuhr seit Januar 1958 und bei der Einfuhr seit Januar 1965 ein vereinfachtes Aufbereitungsverfahren angewandt. Einzelheiten hierzu ergeben aus dem Aufsatz „Methodische Änderungen der Außenhandelsstatistik ab 1962“ in „Wirtschaft und Statistik“ Jg. 1961, Heft 12, hervor.
- In der Darstellung des Außenhandels als Spezialhandel werden die unmittelbaren Einfuhren (s. Ziff. 6 a 1) und alle Ausfuhren (s. Ziff. 6 b) im allgemeinen im Monat des Grenzüberganges, die auf Lager eingeführten Waren dagegen erst im Monat ihrer Einfuhr aus Lager (s. Ziff. 6 a 2) nachgewiesen. Durch unvermeidbare Aufenthalte bei der Anmeldung, aber auch durch Rückfragen, können in geringem Umfange Einfuhren und Ausfuhren in einer späteren Berichtszeit nachgewiesen sein.

10. In der Zusammenfassenden Übersicht werden zunächst die Ein- und Ausfuhrergebnisse des Spezialhandels nach Abschnitten und Kapiteln des Warenverzeichnisses für die Außenhandelsstatistik nachgewiesen.

In der Hauptübersicht wird der Spezialhandel (s. Ziffer 6) nach Nummern oder Zusammenfassungen von Nummern des Warenverzeichnisses für die Außenhandelsstatistik dargestellt. Die Warenbenennung ist bei vielen Positionen abgekürzt, ihr vollständiger Wortlaut ist aus dem genannten Warenverzeichnis zu ersehen. Es folgen, mit Stern (*) bezeichnet, die Angaben für die Gesamteinfuhr bzw. -ausfuhr, sodann die Nachweise für die Eigen- und Lohnveredelung (EV, LV) sowie für die passive Veredelung (PV) — s. Ziffer 6 — und außerdem die Ergebnisse der Einfuhr aus Lager (AUS LAGER) — s. Ziffer 6 a 2 —. Anschließend werden die Mengen und Werte für die Herstellungs- bzw. Verbrauchsländer (s. Ziffer 13) veröffentlicht, für die im Monatsdurchschnitt der jeweils abgelaufenen Jahresteile eine Einfuhr bzw. Ausfuhr im Werte von mindestens 10 000 DM — von Ausnahmen abgesehen — erreicht wurde. Demnach ergibt die Addition der Länderangaben in vielen Fällen nicht die Summenzahlen für die Gesamteinfuhr bzw. -ausfuhr der betreffenden Warenposition. Ferner können bei Positionen mit besonderen Maßstäben (z. B. Stück, Hektoliter usw.) geringfügige Abweichungen in den Summen durch Runden der Zahlen entstehen. Alle durch Erreichen der jeweiligen monatlichen Wertgrenze einmal aufgenommenen Länderangaben werden in den darauffolgenden Monatsheften bis zum Novemberheft weiterhin dargestellt.

In den Angaben über die Gesamteinfuhr- bzw. -ausfuhr je Warenposition sind die Mengen und Werte für den Veredelungsverkehr, für die Einfuhr aus Lager sowie für die nichtveröffentlichten Länder enthalten. Die Angaben für die Herstellungs- bzw. Verbrauchsländer schließen ebenfalls die Mengen und Werte für den Veredelungsverkehr und für die Einfuhr aus Lager ein.

Ist in den Mengen- und Wertspalten eine Zeile nicht mit Zahlen ausgefüllt, so bedeutet dies, daß eine Einfuhr bzw. Ausfuhr nicht stattgefunden hat. Stehen aber nur in der Mengenspalte keine Zahlen, so ist von der betreffenden Ware weniger als die Hälfte der an dieser Stelle nachgewiesenen Einheit eingeführt bzw. ausgeführt worden.

Rückwaren und Ersatzlieferungen werden zusammengefaßt in je einer Warennummer (0011 00 bzw. 0012 00) dargestellt.

11. Die Mengen sind nach Gewicht (dz = 100 kg) angegeben, bei einigen Waren auch oder nur nach anderen handelsüblichen Maßstäben (z. B. Stück, Hektoliter, Festmeter, Doppelzentner, absolut trocken, Tonne usw.). Das Gewicht ist im allgemeinen das Reingewicht der Ware. Bei Flüssigkeiten gehört das Gewicht der unmittelbaren Umschließung zum Reingewicht; dies gilt jedoch nicht für Öle, verflüssigte und verdichtete Gase, Getränke, alkoholische Flüssigkeiten und Essig.

12. Die Werte sind in 1 000 DM nachgewiesen. Sie beziehen sich grundsätzlich auf den Grenzübergangswert, d. h. auf den Wert frei Grenze des Erhebungsgebietes (in der Einfuhr ohne die deutschen Eingangsabgaben). Für Waren, die in einem Veredelungsverkehr (s. Ziff. 6) eingeführt oder ausgeführt wurden, ist stets der volle Warenwert — bei der Ausfuhr oder Einfuhr nach Veredelung jeweils einschließlich der Veredelungskosten und der Vertriebskosten — eingesetzt.

13. Als Bezugs- und Absatzgebiete werden von Januar 1966 an 152 Länder bzw. Gebiete unterschieden (siehe die Übersicht auf den Innenseiten des Umschlages).

Da der Warenverkehr mit den zur Zeit unter fremder Verwaltung stehenden deutschen Ostgebieten und Danzig nicht gesondert ermittelt werden kann, sind die Ergebnisse dieses Verkehrs in den Angaben für Polen bzw. für die Sowjetunion mit enthalten.

In der Einfuhr wird als Herstellungsland (Ursprungsland) das Land nachgewiesen, in dem die Waren gewonnen oder hergestellt oder zuletzt wirtschaftlich sinnvoll so bearbeitet worden sind, daß sich ihre Beschaffenheit wesentlich verändert hat, in der Ausfuhr als Verbrauchsland das Land, in dem die Waren gebraucht oder verbraucht, bearbeitet oder verarbeitet werden sollen. Ist das Herstellungsland nicht bekannt, so tritt an seine Stelle das Versendungsland. Ist das Verbrauchsland nicht bekannt, so wird es durch das Empfangsland ersetzt.

14. Zeichenerklärungen (nur für zusammenfassende Übersicht; zur Darstellung der Hauptübersicht vgl. Ziffer 10):

— = es hat keine Einfuhr bzw. Ausfuhr stattgefunden.

0 = es wurde weniger als die Hälfte der an der betr. Stelle nachgewiesenen Einheit eingeführt bzw. ausgeführt.

. = kein Nachweis vorhanden.

15. Die Angaben für 1966 stellen vorläufige Ergebnisse dar.

16. Abweichungen der hier nachgewiesenen Zahlen von bisher bekanntgegebenen Ergebnissen beruhen auf nachträglichen Berichtigungen.

17. Abkürzungen

| | | | | | |
|------|-------------------------|--------|----------------------------------|------|--|
