Notes for the User

The present list provides an outline of the publications issued by the Federal Statistical Office. It comprises all titles which may be obtained from the publishers according to the position of 1 January 1975. Older publications which are already out of print and for the most part also outdated as to their content, may be consulted either at the Federal Statistical Office or in libraries and archives.

The publications are generally issued only in German. Translations into foreign languages are available only for some selected publications (See section V).

Explanations

System of publications

The **summary publications** contain results from several or all fields of activity of the Federal Statistical Office. Among the best-known publications offering a cross section of official statistics are "Statistisches Jahrbuch" (Statistical Yearbook), the monthly review "Wirtschaft und Statistik" (Economics and Statistics) and "Statistischer Wochen-dienst" (Information on Statistics, Weekly). Moreover, this group comprises larger volumes dealing with organizational, methodological and technical questions, studies on the economic structure, report series providing general results of foreign statistics as well as summary brochures.

The publications containing results from the individual fields of statistics are issued within the scope of **subject-matter series**. Each subject-matter series is subdivided into a certain number of **publications series** which contain results of specific statistics becoming available periodically, as well as special contributions to these statistics issued at irregular intervals. In general, the titles of these series indicate the specific field covered by the statistics. A series may further be subdivided into individual titles or sub-titles. The results of censuses or other major surveys conducted only once or at irregular intervals are issued within the scope of the re-

spective subject-matter series as **one-time publications**.

The **classifications** constitute subsidiary material for the compilation of individual statistics, and only in exceptional cases (Official Index of Communities) contain numerical data.

Some of the regionally classified data, above all from major censuses, are also published in the form of **maps**.

All new publications are announced weekly in the "Bundesanzeiger" (Federal Advertiser) and in "Statistischer Wochendienst" (Information on Statistics, Weekly), and monthly in "Wirtschaft und Statistik" (Economics and Statistics).

Periodicity

The bracketed figures in the column "Periodicity" always refer to the latest edition of publications issued annually, at irregular intervals or on a one-time basis. (Position: Early in January 1975). The same applies to the prices quoted. As far as enumeration results of the category "one-time publications" are concerned, the reference year always is part of the title of the publication.

P r i c e s

The prices (value added tax included) as quoted in this list are to be understood excluding forwarding charges and relate to the position as of 1 January 1975. Prices are subject to alterations.

S u b s c r i p t i o n a n d c a n c e l l a t i o n

Publications issued periodically may be ordered for continuous supply. Price abatements are allowed for subscriptions to s h o r t - t e r m periodicals (weekly, monthly, quarterly reports, etc.) - cf. column "Annual subscription" in the List of Publications).

Subscriptions to short-term publications which are not cancelled at the latest a fortnight after the publication of the issue preceding the last one of a reference year, will continue automatically. The same period applies to publications issued annually or at several years' intervals. Special terms for the cancellation of a subscription (quarterly for the end of the year) apply only in the case of the monthly review "Wirtschaft und Statistik" (Economics and Statistics).

Reduced subscription prices can be granted only if complete years are ordered. If a subscription is to begin in the course of a reference year, the full price per copy will have to be charged for the rest of the year.

Not all of the figures compiled can be published by the Federal Statistical Office, but only a certain selection of the data. Requests for further information to be addressed to

Statistisches Bundesamt
62 Wiesbaden, Gustav-Stresemann-Ring 11
Postfach 828, Tel. (06121) 7051
Telex 04-186511

will be answered to the extent that the situation permits. It should however be noted that for reasons of statistical secrecy individual data must not be revealed.

The reproduction of publications of the Federal Statistical Office is subject to acknowledgement of the source. (A voucher copy to be addressed to the Federal Statistical Office).
