Notes for Users

The annual list of publications provides a detailed picture of the publications issued by the Federal Statistical Office. The present edition lists all titles available at the beginning of January 1981. Older publications which are already out of print, and for the most part also outdated as to their content, are in general not included. These may be consulted at the Federal Statistical Office or in the larger libraries and archives. Titles which are expected to appear shortly after the publication of this catalogue are referred to as "in preparation"; publications for which no date of issue can be given as yet, are marked "planned".

The periodicity is quoted for each publication (see abbreviations on page 6). The figures in brackets always indicate the latest edition. The prices quoted always refer to this edition.

The German edition of the list of publications contains indications regarding the spatial breakdown of the published material by administrative units (Land, Regierungsbezirk, Kreis, Community), as well as by non-administrative regional units. Only the respective smallest regional unit presented is shown, since the next higher units appear almost throughout also as subtotals or general totals. The reference to the regional breakdown is not to imply that all tables are subdivided accordingly. The most detailed regional breakdown of the results is provided in the publications of the Land statistical offices (see addresses on page 39).

Publication system

The publications of the Federal Statistical Office may be analysed into three major groups:

Summary publications,
Subject-matter series
and
Classifications.

There are further issued publications dealing with statistics on foreign countries as well as maps and foreign-language publications.

The summary publications contain results from several or all fields of activity of the Federal Statistical Office and are classified into general cross-section publications, subject-matter related cross-section publications, publications on organizational and methodological questions as well as summary brochures.

Among the most important general cross-section publications of the Federal Statistical Office are "Statistisches Jahrbuch" (Statistical Yearbook), the monthly review "Wirtschaft und Statistik" (Economics and Statistics) and "Statistischer Wochendienst" (Information on Statistics, Weekly). For regional studies and comparisons, the annual publication "Bevölkerungsstruktur und Wirtschaftskraft der Bundesländer" (Population Structure and Economic Resources of the Federal Laender) provides material in a breakdown by federal Laender. Time series ready for use are contained in the volume "Bevölkerung und Wirtschaft 1872 bis 1972" (Population and Economy, 1872 to 1972) issued on the occasion of the centenary of central statistics in Germany and, for the period as from 1950, in the biennial publication "Lange Reihen zur Wirtschaftsentwicklung" (Long-Term Series on the Economic Development). The monthly publication "Indikatoren zur Wirtschaftsentwicklung" (Indicators of Economic Development) comprises major data on economic trends as both original values and seasonally adjusted figures.

Subject-matter related cross-section publications are compilations of material for specific fields (e.g. education, construction) or else are allocating it to specific groups of persons. This category comprises above all the publications "Die Frau in Familie, Beruf und Gesellschaft" (The Position of the Woman in Family, Occupation and Society), "Die Lebensverhältnisse älterer Menschen" (The Living Conditions of Elderly Persons) and "Die Situation der Kinder in der Bundesrepublik Deutschland" (The Situation of the Children in the Federal Republic of Germany).

Of the publications on organizational and methodological questions, the volume "Das Arbeitsgebiet der Bundesstatistik" (Survey of German Federal Statistics), issued at several years' intervals, provides the most comprehensive and detailed outline of the activities of the Federal Statistical Office and the bases of its work. The unabridged version is intended primarily for the statistical expert; the abridged version, which omits the details, is to inform the user about the principal features of statistics and is also available in English and French. Topical issues of the activities of the Office and problems of the further development of the statistical work programme are dealt with in summary form in the reports entitled "Die Arbeiten des Statistischen Bundesamtes" (The Activities of the Federal Statistical Office), which at the same time provide a basis for discussion at the meetings of the Advisory Committee.

Summary brochures provide in popular form an outline of important spheres of life as far as they are measurable in figures ("Zahlenkompaß" - Statistical Compass, "Im Blickpunkt: Der Mensch" - In the Spotlight: The Human Being), or are throwing light on selected fields of economic and social life ("Haushaltsgeld - woher, wohin?" - Housekeeping Money - Where it Comes from and Where it Goes). They are meant to be first of all material for the information of those interested parties who do not have any specific expert knowledge in the field of official statistics.

The results of individual statistics are issued within the scope of subject-matter series subdivided into large subject fields. Since the rearrangement of the publication system at the beginning of 1977, there have been 19 subject-matter series (see table of contents). Each subject-matter series comprises publication series containing results of current statistics supplemented, whenever necessary, by special contributions. The results of censuses/major surveys conducted only once or at irregular intervals are issued within the scope of the respective subject-matter series as one-time publications.

The classifications constitute subsidiary material for the uniform allocation of data in the statistics and for a breakdown of the results in conformity with the purpose of data collection and presentation. Only in exceptional cases they contain numerical data. According to the kind of data classified, it is distinguished between classifications of enterprises and establishments, commodity classifications and classifications of persons, as well as regional and other classifications.

Data from large-scale censuses are to some extent also shown in the form of subject-matter related maps.

The group "Statistics of Foreign Countries" comprises publications of the Federal Statistical Office which present a cross-section view of foreign statistics (Monthly International Figures, Reports on Foreign Countries and Summary Reports on Foreign Countries) and the subject-matter series "Foreign Statistics" comprising five publication series.

For some of the publications there are also foreign-language editions.

All new publications are announced weekly in the "Bundesanzeiger" (Federal Advertiser) and in "Statistischer Wochendienst" (Information on Statistics, Weekly), and monthly in "Wirtschaft und Statistik" (Economics and Statistics).

Other forms of the provision of data

Despite the wide range of publications issued by the Federal Statistical Office, it is not possible to publish all the data collected. Requests for information lying outside the scope of what can be described as "general purposes" will, wherever possible, and provided that this is not in conflict with the provisions concerning the confidentiality of statistical data, be answered by the information service. Please direct any inquiries to

General Information Service,
Federal Statistical Office
Gustav-Stresemann-Ring 11, Postfach 5528
D-6200 Wiesbaden 1
Tel. 06121/752405, Telex 04186511 and 04186467

Maintaining close contacts with the press, radio and television, the Federal Statistical Office issues about 400 press releases a year, and - for the most part on data of topical interest - the monthly press service "Zahlen, Fakten, Trends" (Figures, Facts, Trends). Upon request, this information is supplied to editorial offices.

As one of the new service facilities, the computer-supported Statistical Information System of the Federation (STATIS-BUND) at the Federal Statistical Office is available for users wishing to carry out statistical evaluations or mathematical-statistical analyses. The stock of data, comprising at present more than 80,000 time series and about 500 million structural data, is continuously being updated and extended. In addition to the compilation of tables in the desired form, the system enables the special processing of survey data and the application of a great number of procedures of mathematical-statistical analysis and projection. Please direct any inquiries, quoting as reference "STATIS-BUND", to the Federal Statistical Office, Wiesbaden (Tel. 06121/752426). Interested parties of the Bonn region are requested to apply to the advisory service "Statistical Information System", Deutschherrenstr. 93, 5300 Bonn 2 (Tel. 0228/332730). Upon request, an informative summary brochure may be obtained free of charge.

The latest figures of the consumer price indices are supplied by an automatic telephone answering service (Tel. 06121/752888). Interested users may inquire about the most recent position of the index of share prices by telex (Telex 04186511 and 04186467).

The reading-rooms of the Library of the Federal Statistical Office in Wiesbaden are open Monday through Friday from 8 a.m. to 3 p.m.
