## What does the List of Publications contain?

The annual List of Publications comprises all the titles available at the beginning of January 1984. They may be consulted at the Federal Statistical Office or in the larger libraries. For a detailed list of sources for major statistical results going further back please see the bibliography of sources of the Statistical Yearbook.

Titles which are expected to appear shortly after the publication of this catalogue are referred to as "in preparation"; publications for which no date of issue can be given as yet, are marked "planned".

All new publications are announced weekly in the "Bundesanzeiger" (Federal Advertiser) and in "Statistischer Wochendienst" (Information on Statistics, Weekly), and monthly in "Wirtschaft und Statistik" (Economics and Statistics).

The periodicity is quoted for each publication (see abbreviations page 6). The figures in brackets always indicate the latest edition.

The German edition of the List of Publications contains indications regarding the spatial breakdown of the published material indicating the smallest regional unit shown (e.g. Regierungsbezirk, Kreis; see abbreviations page 6). The data provided in the publications of the Land statistical offices (addresses see page 74) have a more detailed regional breakdown.

## How is the publication system classified?

The publications of the Federal Statistical Office may be analysed into the three major groups:

- Summary publications,
- Subject-matter series,
- Classifications.

There are further issued publications dealing with statistics on foreign countries as well as maps and foreign-language publications. An outline of the entire publication system is provided in the schedule on the inside cover.

The summary publications contain results from several or all fields of activity of the Federal Statistical Office. Besides the "general cross-section publications" offering a com-

prehensive though condensed selection of figures, there are "subject-matter related cross-section publications" which are imparting information for specific spheres (e.g. education, construction, energy) or allocating it to specific groups of persons (e.g. women, children, foreigners). There are further "publications on organizational and methodological questions".

Summary brochures provide in easily comprehensible form an outline of important spheres of life. For hurried readers, the Federal Statistical Office further provides folders. (For details see page 11).

The results of individual statistics are issued within the scope of subject-matter series subdivided into large subject fields. Each subject-matter series comprises publication series containing results of continuous statistics supplemented, whenever necessary, by special contributions. The results of censuses/major surveys performed only at larger intervals are issued within the respective subject-matter series as non-recurrent publications.

The classifications constitute subsidiary material for the uniform allocation of data in the statistics and for a breakdown of the results in conformity with the purpose of data collection and presentation.

Data from censuses are to some extent also shown in the form of subject-matter related maps.

The category Statistics of Foreign Countries comprises both cross-section publications (e. g. Reports on Foreign Countries) and a subject-matter series of its own entitled "Foreign Statistics".

For some of the publications there are also foreign-language editions.

### What else can the Federal Statistical Office do for you?

Despite the wide range of publications issued by the Federal Statistical Office, it is not possible to publish all the data collected. Requests for information lying outside the scope of what can be described as "general purposes" will - to the extent that they do not conflict with data protection provisions - be answered by the information service. Please direct any inquiries to:

General Information Service  
Federal Statistical Office

Postfach 55 28  
D-6200 Wiesbaden 1

Tel. 06121/752405,

This service will also supply you with general information material concerning the statistical work.

A popular presentation of the work and the results of official statistics is being offered by the "Datenreport 1983" (Data Report, 1983), issued as part of a series published by the Bundeszentrale für politische Bildung (Federal Centre for Political Education). In this publication the Federal Statistical Office comments on an abundance of facts and figures relating to the Federal Republic of Germany.

The "Datenreport" may be obtained free of charge by contacting the Bundeszentrale für politische Bildung, Berliner Freiheit 5-7, D-5300 Bonn, Tel. 0228/5151, or the Federal Statistical Office. A special edition for the booksellers' trade has been published by Verlag Bonn Aktuell GmbH, Pforzheimer Str. 377, D-7000 Stuttgart 31, Tel. 0711/881149 (Price: 24.80 DM).

The reading-rooms of the Library of the Federal Statistical Office in Wiesbaden are open Monday through Friday from 8 a.m. to 3 p.m.

The Federal Statistical Office is issuing annually about 450 press releases on current results of its work. Additional information facilitating the interpretation of statistical figures and relationships is also provided by the monthly press service "Zahlen, Fakten, Trends" (Figures, Facts, Trends). Upon request, this material is supplied free of charge to editorial offices.

The latest figures of the consumer price indices are supplied by an automatic telephone answering service (Tel. 06121/752888). Interested users may inquire about the most recent position of the index of share prices by telex (Telex 4186511 and 4186467) against reimbursement of costs.

As part of the service facilities, the computer-supported Statistical Information System of the Federation (STATIS-BUND) at the Federal Statistical Office is available for users wishing to carry out statistical evaluations or mathematical-statistical analyses. In addition to the compilation of tables in the desired form, the system also makes possible special processings as well as the application of a great number of procedures of mathematical-statistical analysis and projection. The stock of data, comprising at present more than 210,000 time series, is continuously being updated and extended. The data can also be supplied on magnetic tape. Please direct any inquiries to the Federal Statistical Office in Wiesbaden (Tel. 06121/752426) or to the advisory service "Statistical Information System" in Bonn (Tel. 0228/332730). Information material may be obtained free of charge.

In addition, users all over the world can avail themselves of at present 110,000 time series from the total data stored in STATIS-BUND on-line. These include economic indicators and other selected economic data as well as results of employment and population statistics. These data may via the telephone net be called up from the computers of the commercial information providers (DRI Europe Ltd., 221, Avenue Louise, Bte 5, B-1050 Brussels, Belgium, Tel. 00322/6485445; LKS Daten

Service AG, Preussenstr. 19, D-6600 Saarbrücken, Tel. 0681/65501-08, Telex 4421218, and I.P. Sharp GmbH, Kaiserswerther Str. 115, D-4000 Düsseldorf 30, Tel. 0211/452052) and shown or printed out at the data terminal of the user. Detailed information may be obtained from the commercial information providers. Against a nominal charge of DM 45.-, it is also possible to obtain from the Federal Statistical Office a catalogue containing about 1,400 definitions of statistical terms used in the Statistical Information System of the Federation (STATIS-BUND).

For participants in the "Bildschirmtext" (interactive videotex) system, the Federal Statistical Office offers an informa-

tion supply comprising 1,200 pages of videotex. The directory of figures shows numerous tables and graphs depicting life in the Federal Republic of Germany. The statistical express service for the economy informs on a monthly basis by means of selected indices and data about the most recent economic development.

Up to the end of April of 1984, the videotex offered can be called up under the head page \*438 # and after that date under \*48484 #. Information material may be requested from the Federal Statistical Office free of charge.

# Alphabetic Register of Index Words

By means of the register of index words, the publication system of the Federal Statistical Office in its arrangement by subject fields is also made accessible to an alphabetical approach. The index words are followed by letters or figures, respectively (see key to symbols), which indicate the publication

categories in which the desired information can be found. As far as the index word does not appear in the title of the publication, the 7-digit code number of the publication is shown in addition in order to ensure a clear allocation. Synonyms were included in exceptional cases only.
