Notes for Users

What does the List of Publications contain?

The annual List of Publications comprises all the titles available at the beginning of January 1985. They may be consulted at the Federal Statistical Office or in the larger libraries. For a detailed list of sources for major statistical results going further back please see the bibliography of sources of the Statistical Yearbook.

Titles which are expected to appear shortly after the publication of this catalogue are referred to as "in preparation"; publications for which no date of issue can be given as yet, are marked "planned".

All new publications are announced weekly in the "Bundesanzeiger" (Federal Advertiser) and in "Statistischer Wochendienst" (Information on Statistics, Weekly), and monthly in "Wirtschaft und Statistik" (Economics and Statistics).

The periodicity is quoted for each publication (see abbreviations page 6). The figures in brackets always indicate the latest edition.

The German edition of the List of Publications contains indications regarding the spatial breakdown of the published material indicating the smallest regional unit shown (e.g. Regierungsbezirk, Kreis; see abbreviations page 6). The data provided in the publications of the Land statistical offices (addresses see page 7) have a more detailed regional breakdown.

How is the publication system classified?

The publications of the Federal Statistical Office may be analysed into the three major groups:

- Summary publications,
- Subject-matter series,
- Classifications.

There are further issued publications dealing with statistics on foreign countries as well as maps and foreign-language publications. An outline of the entire publication system is provided in the schedule on the inside cover.

The summary publications contain results from several or all fields of activity of the Federal Statistical Office. Besides the "general cross-section publications" offering a com-

prehensive though condensed selection of figures, there are "subject-matter related cross-section publications" which are imparting information for specific spheres (e.g. education, construction, energy) or allocating it to specific groups of persons (e.g. women, children, foreigners). There are further "publications on organizational and methodological questions".

In 1984, the Federal Statistical Office has initiated a new series of publications entitled "Forum der Bundesstatistik" (Forum of Federal Statistics), which is intended to serve as a platform for the discussion of major problems of official statistics. In addition to experts from official statistics, the authors to be featured here will also include experts from science and research.

Summary brochures provide in easily comprehensible form an outline of important spheres of life. For hurried readers, the Federal Statistical Office further provides folders. (For details see page 12).

The results of individual statistics are issued within the scope of subject-matter series subdivided into large subject fields. Each subject-matter series comprises publication series containing results of continuous statistics supplemented, whenever necessary, by special contributions. The results of censuses/major surveys performed only at larger intervals are issued within the respec-

tive subject-matter series as non-recurrent publications.

The classifications constitute subsidiary material for the uniform allocation of data in the statistics and for a breakdown of the results in conformity with the purpose of data collection and presentation.

Data from censuses are to some extent also shown in the form of subject-matter related maps.

The category Statistics of Foreign Countries comprises as of 1985 exclusively cross-section publications (quarterly reports on foreign statistics; reports on foreign countries). The former subject-matter series "Foreign Statistics" is being discontinued; its series are being integrated into the remaining subject-matter series.

For some of the publications there are also foreign-language editions.

(Business hours: Monday through Friday
from 7:30 a.m. to 4:15 p.m.)

When ordering, please quote not only the title and the code number, but also the periodicity/reference period and - where it is known - the customer's number.

The publishers also accept advance orders for publications not yet available. Cancellations should be made in writing.

Forwarding conditions

Delivery is made on the account and at the risk of the orderer. Forwarding charges are billed separately (please specify mode of dispatch). Complaints with respect to incorrect or incomplete shipments should be made directly to the publishers. They can be considered only up to 2 weeks - with shipments abroad up to 4 weeks - after receipt of shipment. Please advise of any change of address without delay.

Prices

The prices (value added tax included, without forwarding charges) relate to the position as of 1 January 1985. Prices are subject to alterations.

Subscription and cancellation

The publications may also be ordered for continuous subscription. The invoice is then as a rule forwarded with the first volume of the reference year. Subscriptions for weekly, monthly, quarterly and semi-annual reports

will continue automatically unless cancelled by giving the publishers three months' written notice for the end of the year. For this purpose, it is absolutely necessary to quote the customer's number.

What else can the Federal Statistical Office do for you?

Despite the wide range of publications issued by the Federal Statistical Office, it is not possible to publish all the data collected. Requests for information lying outside the scope of what can be described as "general purposes" will - to the extent that they do not conflict with data protection provisions - be answered by the i n f o r m a t i o n s e r v i c e . Please direct any inquiries to:

General Information Service
Federal Statistical Office
Gustav-Stresemann-Ring 11,
Postfach 55 28
D-6200 Wiesbaden 1

Tel. 06121/752405,
Telex 4186511 and 4186467
Telefax 06121/753425

This service will also supply you with general information material concerning the statistical work.

A popular presentation of the work and the results of official statistics is being offered by the " D a t e n r e p o r t " (Data Report), issued as part of a series published

by the Bundeszentrale für politische Bildung (Federal Centre for Political Education). In this publication the Federal Statistical Office comments on an abundance of facts and figures relating to the Federal Republic of Germany.

The "Datenreport" may be obtained free of charge by contacting the Bundeszentrale für politische Bildung, Berliner Freiheit 5-7, D-5300 Bonn, Tel. 0228/5151, or the Federal Statistical Office. A special edition for the booksellers' trade has been published by Verlag Bonn Aktuell GmbH, Pforzheimer Str. 377, D-7000 Stuttgart 31, Tel. 0711/881149 (Price for the 1983 edition: 24.80 DM).

The Federal Statistical Office is issuing annually about 450 press releases on current results of its work. Additional information facilitating the interpretation of statistical figures and relationships is also provided by the monthly press service "Zahlen, Fakten, Trends" (Figures, Facts, Trends). Upon request, this material is supplied free of charge to editorial offices.

The latest figures of the consumer price indices are supplied by an automatic telephone answering service (Tel. 06121/752888). Interested users may inquire about the most recent position of the index of share prices by telex (Telex 4186511 and 4186467) against reimbursement of costs.

An information supply comprising more than 1,000 pages of videotex with the latest statistical results can, as part of the "Bildschirmtext" (Videotex) service, be called up free of charge under the head page *48484#. The essential part of this offer is the directory of figures (*484848#), which in easily intelligible graphs and tables provides summary data from virtually all spheres of official statistics. The information supply inter alia also includes up-to-date headlines relating to current events and the "Statistical Express Service for the Economy" (*484846#) with selected economic indicators. It is also possible to order publications and to make brief inquiries by contacting the information service of the Federal Statistical Office.

As of spring of 1985, it will be possible via head page *48481# to have a uniform access to the videotex information offered by the Federal Statistical Office and the Land statistical offices, so that comparable federal and Laender results can be called up. Free information material may be requested from the Federal Statistical Office.

As part of the service facilities, the computer-supported Statistical Information System of the Federation (STATIS - BUND)

is available for users wishing to carry out statistical evaluations or mathematical-statistical analyses. In addition to the compilation of tables in the desired form, the system also makes possible special processings as well as the application of a great number of procedures of mathematical-statistical analysis. The stock of data, comprising at present more than 250,000 time series, is continuously being updated and extended. Users have the possibility to use the information system either via a direct connection or by placing a direct order with the Federal Statistical Office. The data can be supplied in form of a printout or on magnetic tape.

Online access to a selected part of time series is also possible via the data processing installations and networks of commercial information providers. Detailed information on access procedures as well as costs may be obtained direct from the firms concerned.

Please direct any inquiries to the Federal Statistical Office in Wiesbaden (Tel. 06121/752426) or the advisory service "Statistical Information System" in Bonn (Tel. 0228/332730). Information material may be obtained free of charge.

Against a nominal charge of DM 45.-, it is also possible to obtain from the Federal Statistical Office a catalogue containing about 1,400 definitions of statistical terms used in the Statistical Information System of the Federation (STATIS-BUND).

The reading-rooms of the Library of the Federal Statistical Office in Wiesbaden are open Monday through Friday from 8 a.m. to 3 p.m.

Alphabetic Register of Index Words

By means of the register of index words, the publication system of the Federal Statistical Office in its arrangement by subject fields is also made accessible to an alphabetical approach. The index words are followed by letters or figures, respectively (see key to symbols), which indicate the publication

categories in which the desired information can be found. As far as the index word does not appear in the title of the publication, the 7-digit code number of the publication is shown in addition in order to ensure a clear allocation. Synonyms were included in exceptional cases only.
